# LONG-BELL WOODWORK

*For index to Sash, Door and Blind Lists see Page 133.*

**T**O retail lumber  
dealers, and through  
them to the con-  
tractor, the carpenter and  
the prospective home-  
builder, The Long-Bell  
Lumber Company submits  
this catalog as a guide in  
that important phase of  
home-building and con-  
struction dealing with  
sash, doors and the wood-  
work entering into such  
construction.

## The Long-Bell Plan Service

**V**ARIED and attractive are the designs of small homes in the Long-Bell Plan Service, a service provided to retail lumber dealers as a means of aiding customers in the selection of a suitable, satisfactory home. Only the small home is covered in this service—homes designed for those builders who do not seek the services of an architect and yet require a well planned home, fitting individual requirements. To

such a builder, the Long-Bell service is invaluable, showing as it does numerous cottages, bungalows and two-story dwellings, with floor arrangements planned to meet modern requirements in convenience and space economy. Blue prints of these homes are available through lumber dealers having this service on hand—a service adequate to meet general home planning needs in a highly satisfactory manner.

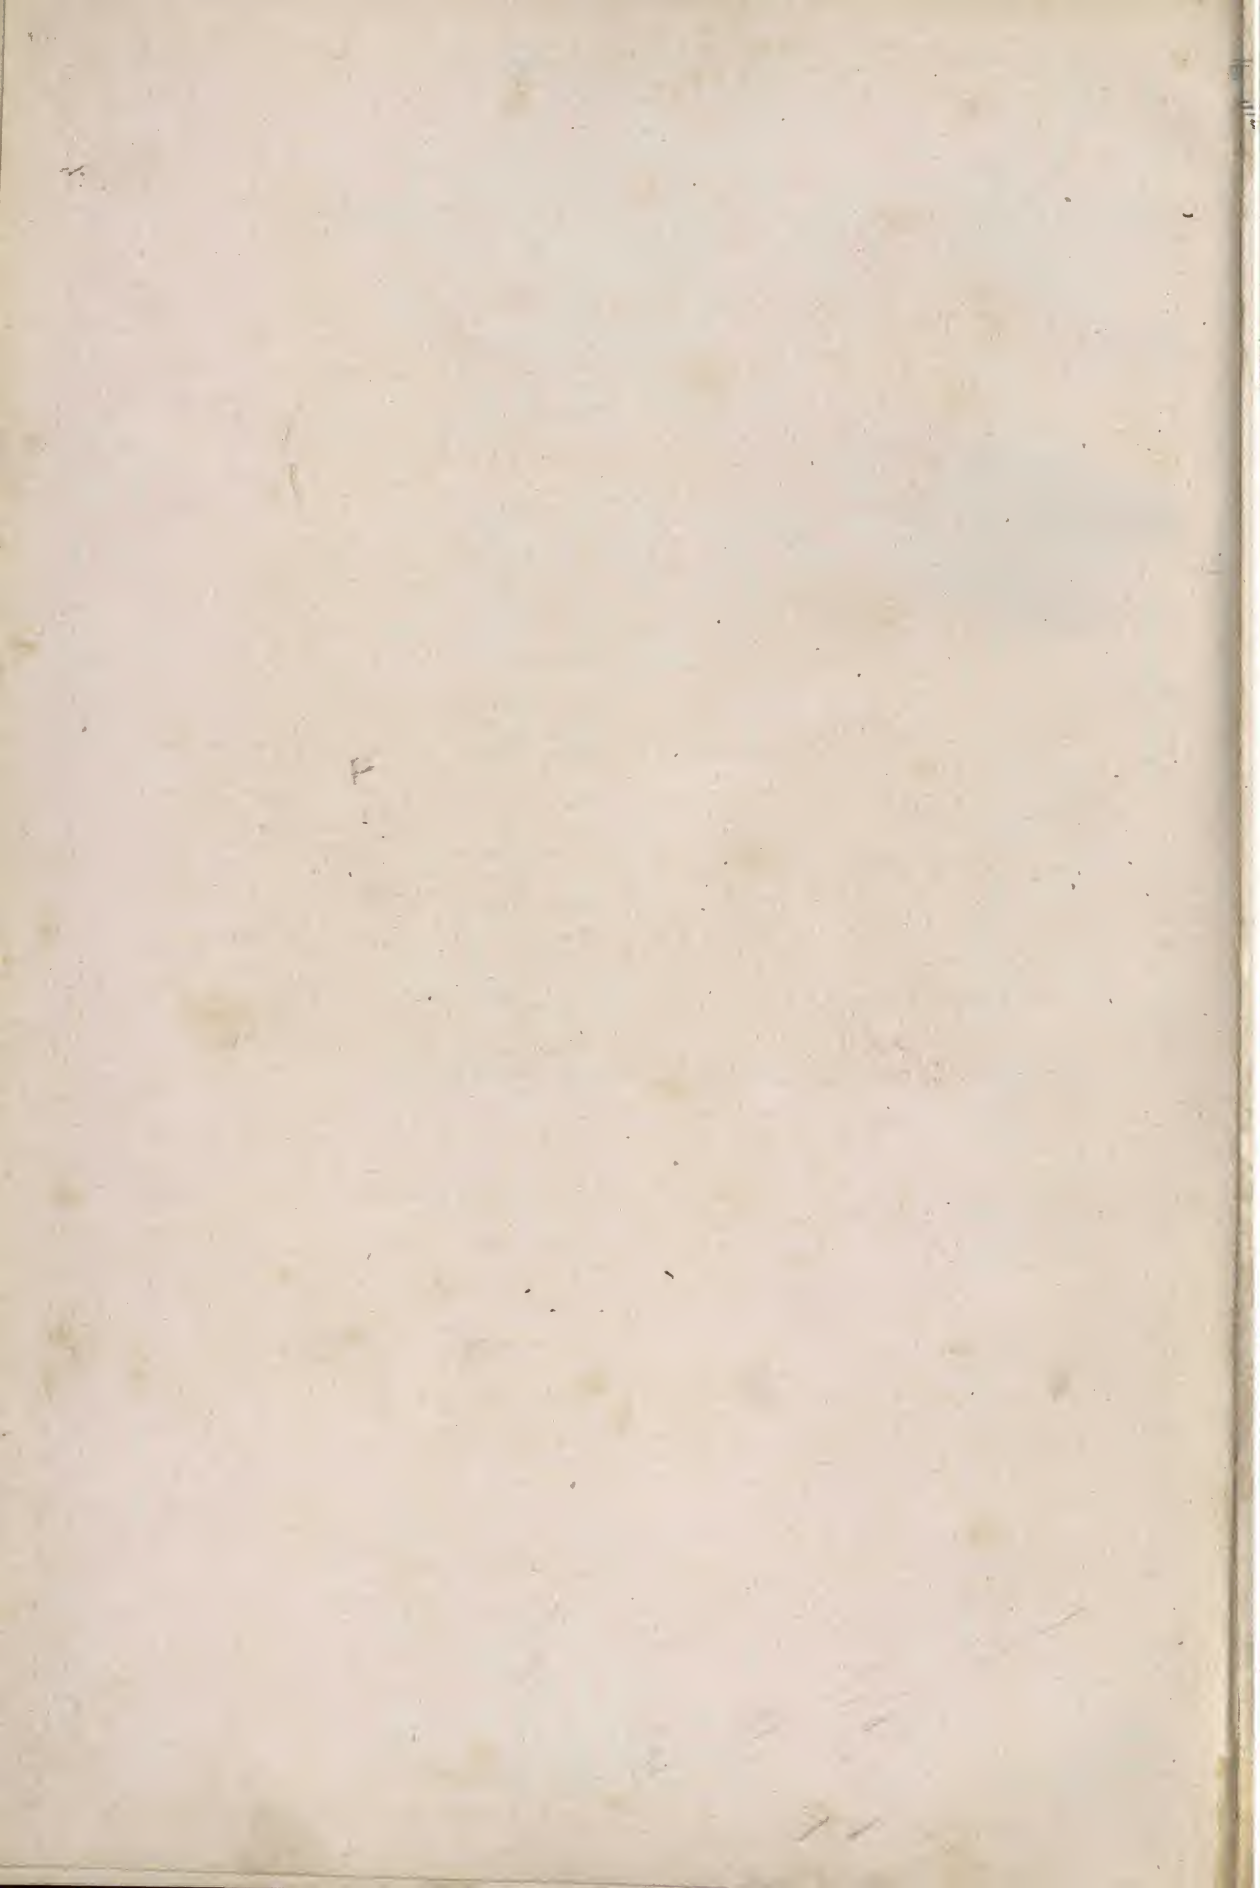

## *Long-Bell Home Designs*

The designs and plans of many attractive homes are provided in the Long-Bell Plan Service to retail lumber dealers. Through this service a variety of designs of cottages, bungalows and two-story homes are available as a part of the service rendered by this company to dealers, and through them, to the home-builder.

## To The Retail Lumber Dealer

THE same policies that have brought The Long-Bell Lumber Company to its acknowledged rank in the lumber industry govern the manufacture and sale of Long-Bell Woodwork.

In this catalog is displayed a complete line of sash, doors and woodwork, readily available to dealers in the territory served by the sash and door houses of this company.

Long-Bell Woodwork is uniformly dependable and substantial, manufactured to give lasting satisfaction

to the user and distributed with that attention to service which assures the dealer and the consumer of prompt and thorough satisfaction.

More and more it is being realized by builders that the retail lumberman has a business and a service of invaluable importance to a community. It is with consideration of that service of the retail lumberman to his trade that this catalog has been planned and published—as a guide to dependable woodwork for retailer and customer alike.

---

## To The Contractor

**I**N the building and remodeling of homes and in other building activities the local contractor holds an important responsibility.

That responsibility is to please the builder and at the same time assure substantial construction that will maintain its usefulness over the longest possible period of time.

No one realizes the importance, the necessity, of dependable, substantial woodwork more than the experienced contractor. In contact for years with varying classes of material and widely divergent modes

of construction, the skilled contractor knows that eventually the most complete satisfaction comes to those builders who demand, not the most expensive items of woodwork, but that quality of woodwork which assures prolonged service under every day wear-and-tear usage and which eventually proves most economical.

Contractors will find in Long-Bell Woodwork just such qualities, in designs varied enough to afford pleasing selections, and promising the quite important additional feature of attractiveness.

---

## To The Home Builder

**T**HE building of a home, whether it be modest or pretentious, is an important undertaking. From the first preliminary planning until the home is completed, many problems arise, some of them confusing to the layman, who is anxious above all to have the finished home all that he plans, and to have it stand up serviceably against undue depreciation.

It is with the latter requirement in mind that we call the attention of home-builders to Long-Bell Woodwork and its qualities which recommend the articles featured in this catalog to careful builders.

Woodwork has a definite function

to perform in making a finished home, so that durability is important. It must lend itself to certain requirements of finish, in order to harmonize with the surroundings; it must be attractive in design.

The purpose of Long-Bell Woodwork is to fill these requirements; and in this catalog is brought together a carefully considered selection of the many items of woodwork, chosen from the standpoint of serviceability and offering designs in variety of uniform high quality woodwork suiting practically every general construction requirement.

Particular attention is called to the superior value of Long-Bell Cali-

---

fornia White Pine Doors, and the many attractive designs shown. Exterior doors, interior doors, French doors, screen doors, sash doors and garage doors may be had in California White Pine. Made of the perfect door wood, taking paints, enamels, stains and natural finish readily and with pleasing results, offering substantial, dependable service because of the quality of the wood and the skilled workmanship going into their making, these Long-Bell doors are particularly to be recommended. Further word of the good qualities of California White Pine will be found on a succeeding page.

To the buyer, something regard-

ing the policies and standing of The Long-Bell Lumber Company is not out of place. Since 1875 this company has been engaged in providing dependable lumber products for building. The name "Long-Bell" has been and is synonymous with lumber products of uniform high quality, a reputation that extends into the making and selling of Long-Bell Woodwork.

In the selection of woodwork, the advice and service of the retail lumber dealer is invaluable. The close co-operation of builder and lumberman in this important matter, we feel sure, will result in the most lasting satisfaction to all.

---

## The Qualities of White Pine

**T**HE species of California White Pine used in Long-Bell doors and in other woodwork as shown in this catalog is a softwood with a beautiful grain that recognizes no superior among woods, especially for the making of fine doors.

The grain is particularly pronounced in the panels of the several panel doors shown. The panels are made of  $\frac{3}{8}$  inch 3-ply rotary cut white pine veneer.

The advantages of such a Long-Bell All-White-Pine Door over doors of other woods or combinations of woods include a uniformity of finish, a surface far superior for paint or enamel, giving a better finish with fewer coats of paint than any other wood. White pine also takes natural finish or stains readily. It will not check or split, and warps less than any other wood.

Long-Bell No. 1 doors are clear and have no defects.

Panels, stiles and rails are all made in one Long-Bell plant. The workmanship and supervision there is unsurpassed.

Long-Bell white pine timber holdings and plant are in the shadows of Mt. Shasta, in a region producing the best California White Pine. This pine is grown at a high altitude; it combines whiteness of stock, softness of texture, strength and suitability for many construction purposes. Chief among the uses to which it is most adaptable is the making of sash, doors and woodwork. Long-Bell doors made of this wood are economical; they are easy to fit and hang, and to mortise for locks and hinges; often saving 25 to 50 cents per door in carpenter's time.

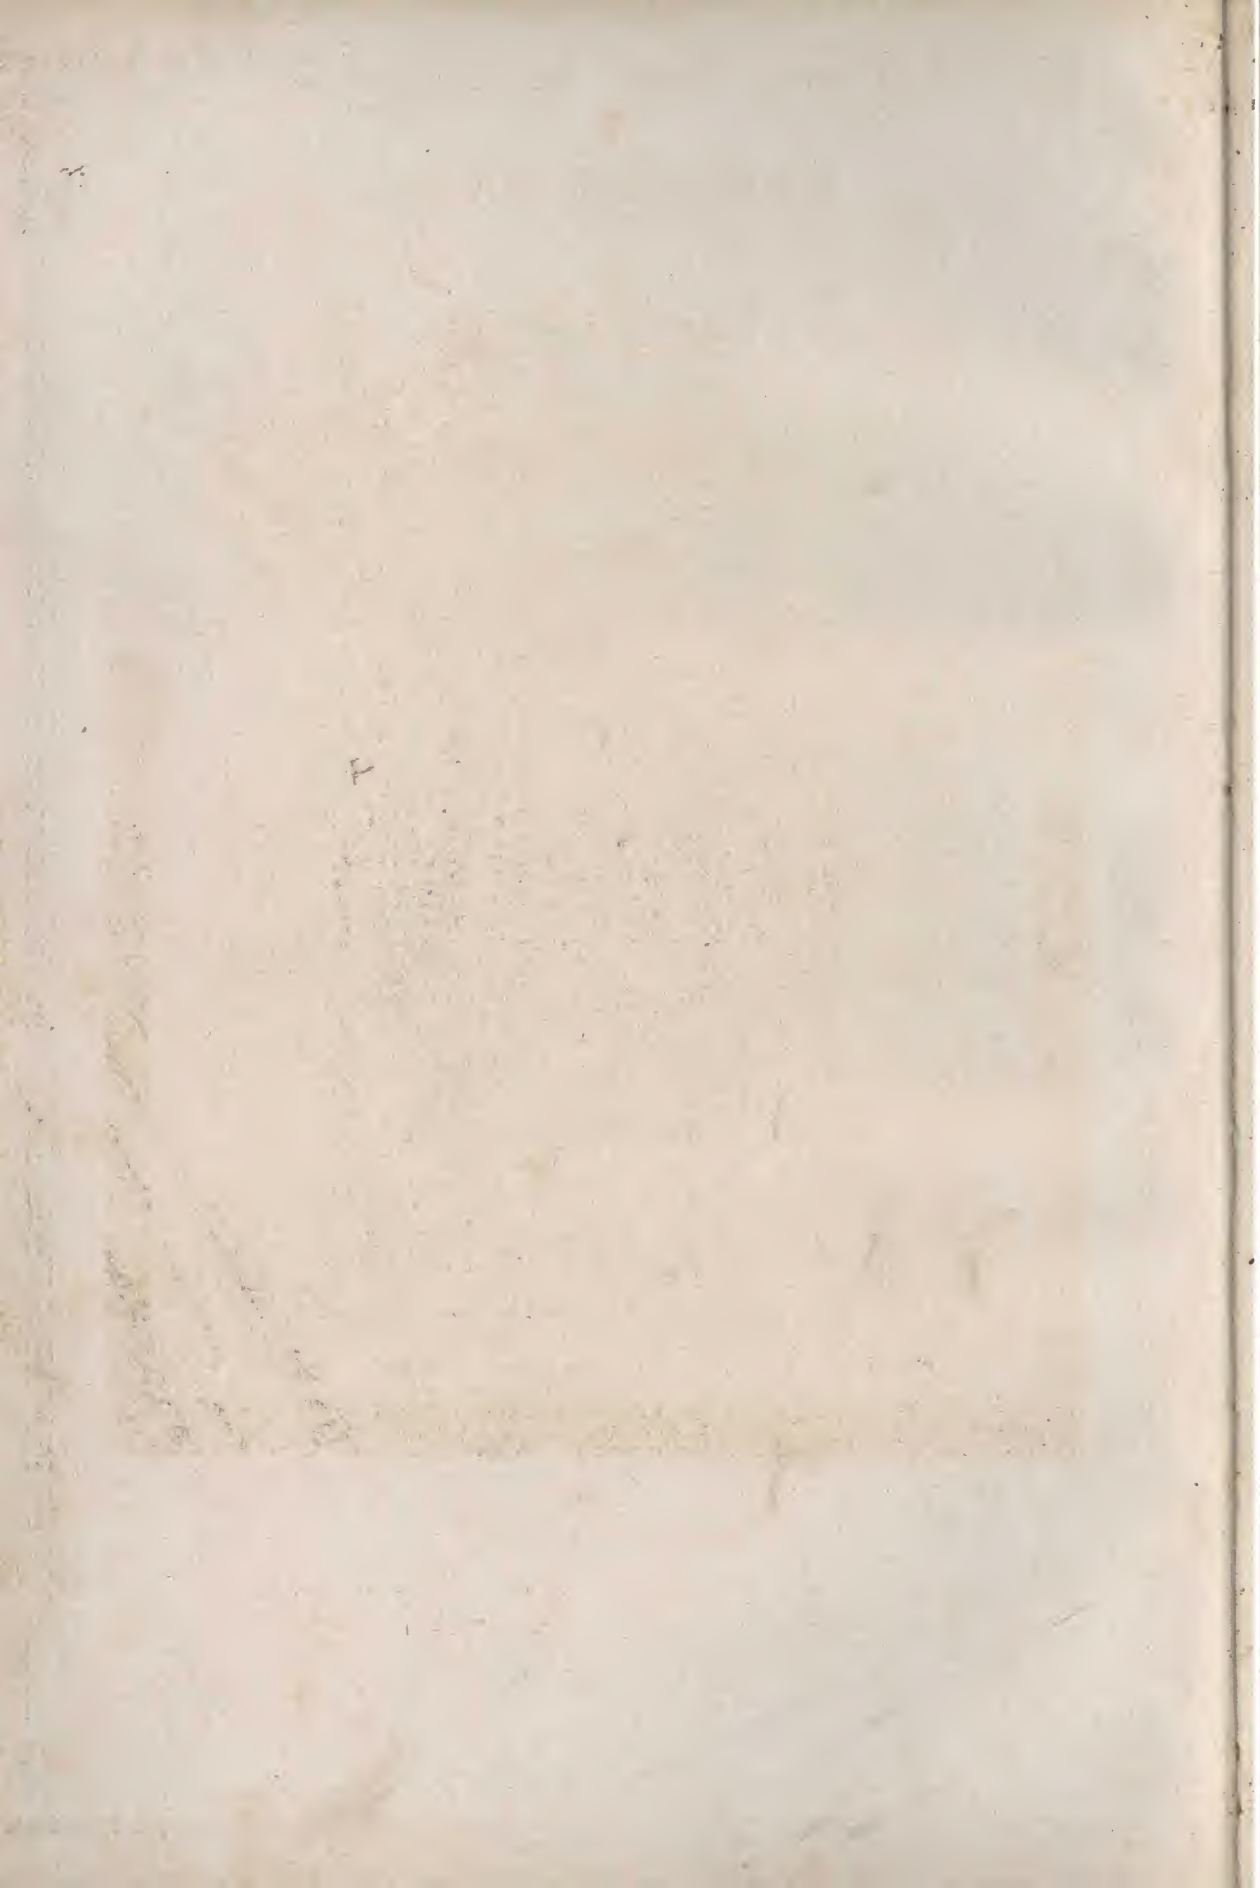

## *Long-Bell California White Pine Doors*

Doors as permanent as the home!—that apt expression stressing durability and dependability, the qualities most desired in exterior doors, fits particularly well the Long-Bell door made of California White Pine. Durability, strength and attractiveness of design, and finish are the important features to be had in these Long-Bell doors.

10-A

**Long-Bell Woodwork**

## COLONIAL ENTRANCE

LB-100

*Shown in California White Pine.*

Simplicity in design and sturdiness of construction provide much of the charm of things colonial. Such features are apparent in the Long-Bell entrance shown on this page.

# COLONIAL ENTRANCE

LB-101

*Shown in California White Pine*

This entrance is inviting. Where the colonial design is adaptable, such an entrance as is here pictured promises pleasing and substantial charm for the carefully planned home.

## EXTERIOR PINE DOORS

LB-102

LB-103

*Shown in California White Pine*

Unusual care and skill are exercised in the manufacture of Long-Bell White Pine Doors, and rigid inspections give further assurance of quality production in the designs here pictured.

# EXTERIOR PINE DOORS

53  
496  
2  
71-11, 8

LB-104

LB-105

*Shown in California White Pine*

An important advantage in doors made of California White Pine is the readiness with which this wood takes paints, enamels, stains and natural finish, so that a finish harmonizing with the general scheme of the home may be assured.

EXTERIOR PINE DOORS

LB-106

LB-107

*Shown in California White Pine*

Durability is built into Long-Bell Doors by careful and rigid requirements of manufacture, so that the finished door gives lasting satisfaction in continuous service.

# EXTERIOR PINE DOORS

LB-108

LB-109

*Shown in California White Pine*

A special waterproof, heat-resisting glue is used in putting together these Long-Bell White Pine Doors, assuring greater strength in construction and permanent satisfaction.

EXTERIOR PINE DOORS

LB-110

LB-111

*Shown in California White Pine*

Whether of plain or elaborate design, Long-Bell White Pine Doors are uniformly well built, manufactured to give the highest satisfaction.

These doors with and without trim.

## EXTERIOR PINE DOORS

LB-112

LB-113

*Shown in California White Pine*

Strength and durability are not sacrificed for the sake of appearance in Long-Bell White Pine Doors having many small lights, designs that are very popular and attractive.

EXTERIOR PINE DOORS

LB-114

LB-115

*Shown in California White Pine*

Long-Bell White Pine Doors are not a combination of woods, but are made throughout of California White Pine, thus assuring uniform finish.

# EXTERIOR PINE DOORS

LB-116

LB-117

*Shown in California White Pine*

The usefulness of a door is determined by its length and quality of service—two points of superiority to be had in Long-Bell White Pine Doors.

EXTERIOR PINE DOORS

LB-118

LB-119

*Shown in California White Pine*

Skilled, experienced men, working with modern machinery, make Long-Bell White Pine Doors, which are rigidly inspected before shipment.

EXTERIOR PINE DOORS

LB-120

LB-121

*Shown in California White Pine*

Doors with all of the substantial qualifications of Long-Bell White Pine Doors are the most economical, durable and dependable doors to buy.

## INTERIOR PINE DOORS

LB-140  
(California)

LB-141  
(Shasta)

Long-Bell All-White-Pine Doors, superior in workmanship and other qualities affecting both utility and appearance, are unexcelled for interior use.

*Made throughout of California White Pine*

## INTERIOR PINE DOORS

LB-142  
(Mongolia)

LB-143  
(Oakland)

The rotary cut 3-ply laminated panels in these Long-Bell Doors have a beautiful grain; they will not check or warp; made of one wood, these doors take a uniform finish.

*Made throughout of California White Pine*

# INTERIOR PINE DOORS

**LB-145**  
Flat Panel

**LB-145**  
Raised Panel

*Shown in California White Pine*

The 5X panel door is a standby for certain uses; in this design of Long-Bell door is combined strength and durability. Shown above is the 5X panel door with flat panels and with raised panels.

## FRENCH DOORS

LB-150

*Shown in California White Pine*

Between living room and porch, for openings into sun parlors and to verandas, French doors are often indispensable, adding to the cheer and informality of any room.

## FRENCH DOORS

LB-151

*Shown in California White Pine*

Here are designs of Long-Bell French Doors fitting the requirements of almost any home—doors built substantially of California White Pine in popular designs.

## FRENCH DOORS

**LB-152**

*Shown in California White Pine*

The sound construction of these Long-Bell Doors, performing duty in protection against weather and intrusion as they do, is a matter of primary consideration in the selection of French doors.

## FRENCH DOORS

LB-153

*Shown in California White Pine*

Strong and durable, Long-Bell French Doors combine those very necessary features with pleasing appearance in designs harmonizing with almost any home plans.

## GARAGE DOORS

LB-161

LB-160  
(Upper)

LB-162

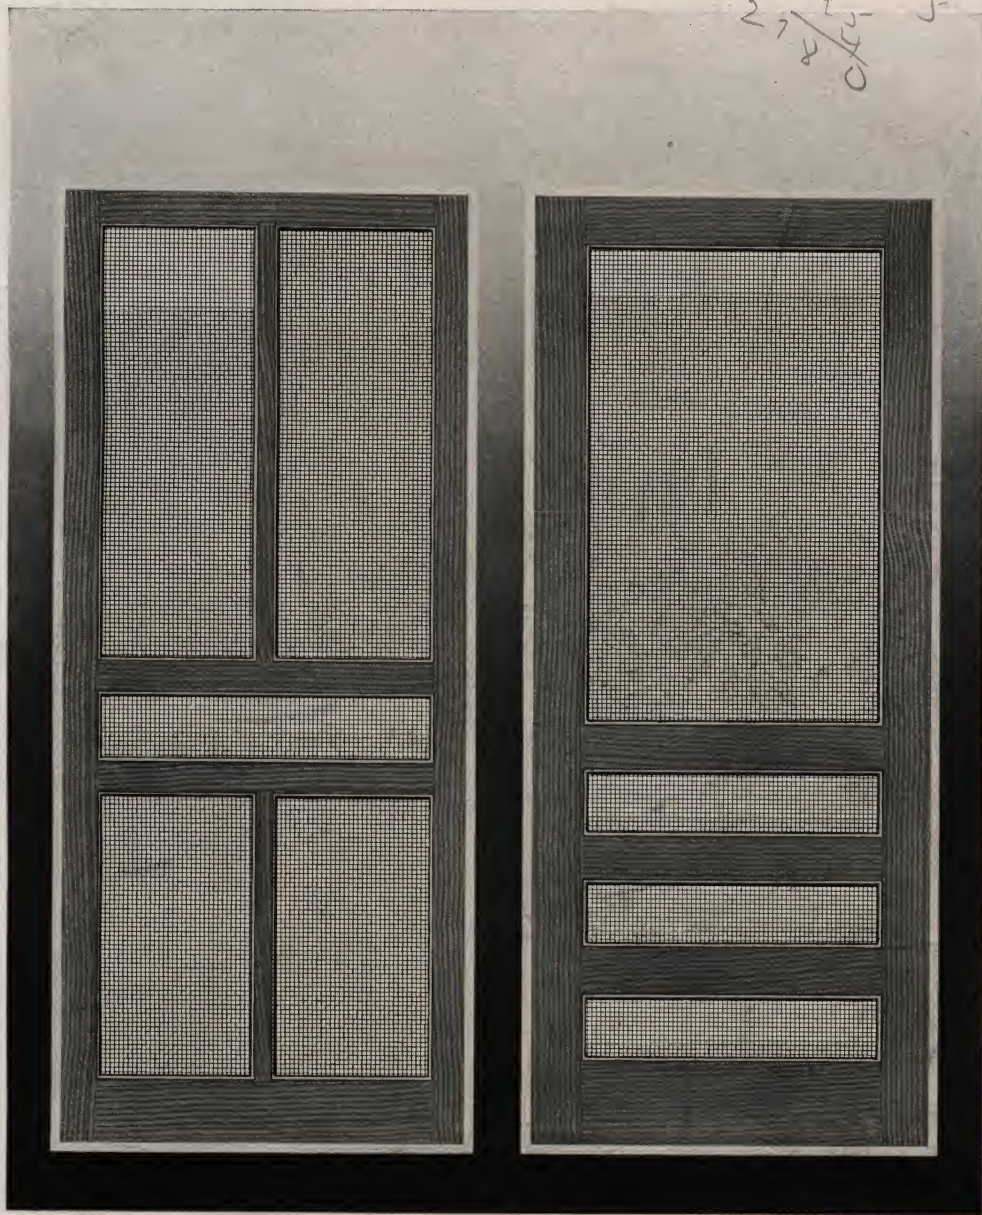

*Shown in California White Pine*

Long-Bell Garage Doors are made of California White Pine, adequately reinforced to give the strength and durability required in large doors, and of designs attractively fitting any requirements.

WHITE PINE SCREEN DOORS

695  
20835  
695  
27840

LB-170

LB-171

*Shown in California White Pine*

Long-Bell screen doors are well built, promising lengthy service in constant use and with the utmost satisfaction.

# WHITE PINE SCREEN DOORS

LB-172

LB-173

*Shown in California White Pine*

These Long-Bell Screen Doors will stand up well under the hard usage to which screen doors are subjected, an important consideration in selecting screen doors.

## WHITE PINE WINDOW SCREENS

Good construction is very necessary in window screens. Long-Bell screens are mortised and tenoned—manufactured to give the most satisfactory service.

# COMBINATION SCREEN AND STORM DOORS

LB-180

LB-181

*Shown in California White Pine*

The glass panels in the above Long-Bell Doors may be removed and screens fitted in, thus providing a door serviceable all the year around, built substantially with such continual usage in mind.

## *Long-Bell Hardwood Doors*

The hardwood door has long been in demand and has proved its adaptability and serviceability. The designs illustrated here are varied and attractive; the workmanship is unsurpassed.

## SUGGESTIONS FOR TREATMENT OF HARDWOOD DOORS

With the best manufacturing skill put into the making of hardwood doors, it is yet necessary that the proper treatment be given these doors after they reach the builder.

Do not install veneered doors until the building is thoroughly dry—a suggestion that is equally true in case of either hardwood flooring or veneered doors. A veneered door

should be given immediately a light coat of filler. The glass should be bedded in putty. After fitting, paint top and bottom of door with white lead and oil. Apply at least two coats of varnish; for exterior doors, use the best grade of exterior spar varnish. In all cases, for the proper results, the best grades of filler, stains, shellacs or varnishes should be used.

## HARDWOOD FLUSH DOORS

LB-200

*Shown in Plain Red Oak*

LB-200

*Shown in Curly Birch*

The flush door, one of the most distinctive conservative designs of front door available, has no corners or ledges to collect dust and dirt and is very popular in modern home building.

## HARDWOOD FLUSH DOORS

LB-201

LB-202

*Shown in Plain Red Oak*

The flush door with single light maintains the massive beauty of the solid slab, yet admits plenty of light into the home and presents a charming outward appearance.

# HARDWOOD FLUSH DOORS

LB-203

LB-204

*Shown in Plain Red Oak*

These designs are variations of those on the preceding page, with small lights of varying patterns. Bevel plate glass heightens the effect.

## HARDWOOD FLUSH DOORS

LB-205

LB-206

*Shown in Plain Red Oak*

Here is the flush door with long, narrow lights, particularly fitting for the low, wide bungalow, and adding exterior charm to any dwelling.

# HARDWOOD FLUSH DOORS

LB-207

LB-208

*Shown in Plain Red Oak*

One of the claims to distinction of the flush door is the effect given of sturdiness, an effect rather enhanced in this design by the small contrasting lights.

## HARDWOOD FLUSH DOORS

LB-209

LB-210

*Shown in Plain Red Oak*

Two practical designs, the stool on Door LB-210 contributing effectively in strengthening the massive appearance of the design.

## HARDWOOD FLUSH DOORS

LB-211

LB-212

*Shown in Plain Red Oak*

The hardwood flush door answers every requirement of utility, attractiveness, substantial construction—the features most necessary in a good front door.

## EXTERIOR HARDWOOD DOORS

LB-225

LB-226

*Shown in Plain Red Oak*

In the selection of a front door bear in mind how well it harmonizes with both the architecture of the exterior and the woodwork of the interior.

## EXTERIOR HARDWOOD DOORS

LB-227

LB-228

*Shown in Plain Red Oak*

In these front doors the high lights, providing ample light for the hall within, give a touch of privacy and security to the home, and, too, an attractive entrance.

## EXTERIOR HARDWOOD DOORS

LB-229

LB-230

*Shown in Plain Red Oak*

The contrast of numerous small lights and broad expanse of wood here combine in substantial, pleasing hardwood doors.

## EXTERIOR HARDWOOD DOORS

LB-231

LB-232

*Shown in Plain Red Oak*

These doors are similar to Designs LB-227 and 228, except that two vertical panels here give an added touch of attractiveness.

## EXTERIOR HARDWOOD DOORS

LB-233

LB-234

*Shown in Plain Red Oak*

The cozy, homey atmosphere of a dwelling is enhanced by an entrance fitted with such doors as these, which are plain and conservative in design and substantial in build and appearance.

EXTERIOR HARDWOOD DOORS

LB-235

LB-236

*Shown in Plain Red Oak*

The need of a well lighted entrance often leads to the selection of such front doors as these. They are substantial and attractive.

## EXTERIOR HARDWOOD DOORS

LB-237

LB-238

*Shown in Plain Red Oak*

The practical value of these designs, admitting plenty of light, will appeal to many home builders. These hardwood doors are substantially built, a point in construction not to be overlooked in this design of door.

# EXTERIOR HARDWOOD DOORS

LB-239

LB-240

*Shown in Plain Red Oak*

Variety in design, getting away from too strict formality, is often desired. Here, and on the following page, such informality of door design is well illustrated.

# EXTERIOR HARDWOOD DOORS

LB-241

LB-242

*Shown in Plain Red Oak.*

The designs on this page are merely further variations of the designs shown on the preceding page—a distinctive, sturdy door in whatever design is chosen.

# EXTERIOR HARDWOOD DOORS

LB-243

LB-244

*Shown in Plain Red Oak.*

These doors, with their long, narrow lights, find favor particularly as front doors for bungalows. Bevel plate glass adds attractiveness to the appearance of both doors.

INTERIOR HARDWOOD DOORS

LB-275

LB-276

*Shown in Plain Red Oak*

Conservative and simple in design, these doors display well the natural beauty of the wood. Sturdy hardwood doors may be used in office or home.

# INTERIOR HARDWOOD DOORS

LB-277

LB-278

*Shown in Plain Red Oak*

These designs of interior doors give the effect of a high ceiling and are quite the thing for bungalows or other dwellings where a high ceiling effect is desired. Design LB-278 is a colonial pattern.

## MIRROR DOORS

LB-285

LB-286

*Shown in Plain Red Oak*

In Design LB-285 is shown a bevel plate mirror set flush with the face of the door. Design LB-286, cut away, shows how the mirror is set on the face of the door and held in place by a special moulding.

## HARDWOOD SIDELIGHTS

LB-300

LB-301

LB-302

*Shown in Plain Red Oak*

Often the charm of a doorway is increased by sidelights harmonizing with other features of the entrance. Sidelights also permit better lighting within.

## HARDWOOD SIDELIGHTS

LB-303

LB-304

LB-305

*Shown in Plain Red Oak*

The eight designs shown on these hardwood sidelight pages offer a range of styles sufficient for all general purposes. Substantial construction is assured in Long-Bell sidelights.

# HARDWOOD SIDELIGHTS

LB-306

LB-307

*Shown in Plain Red Oak*

These flush sidelights are designed to match flush doors. They may be used, however, with other doors.

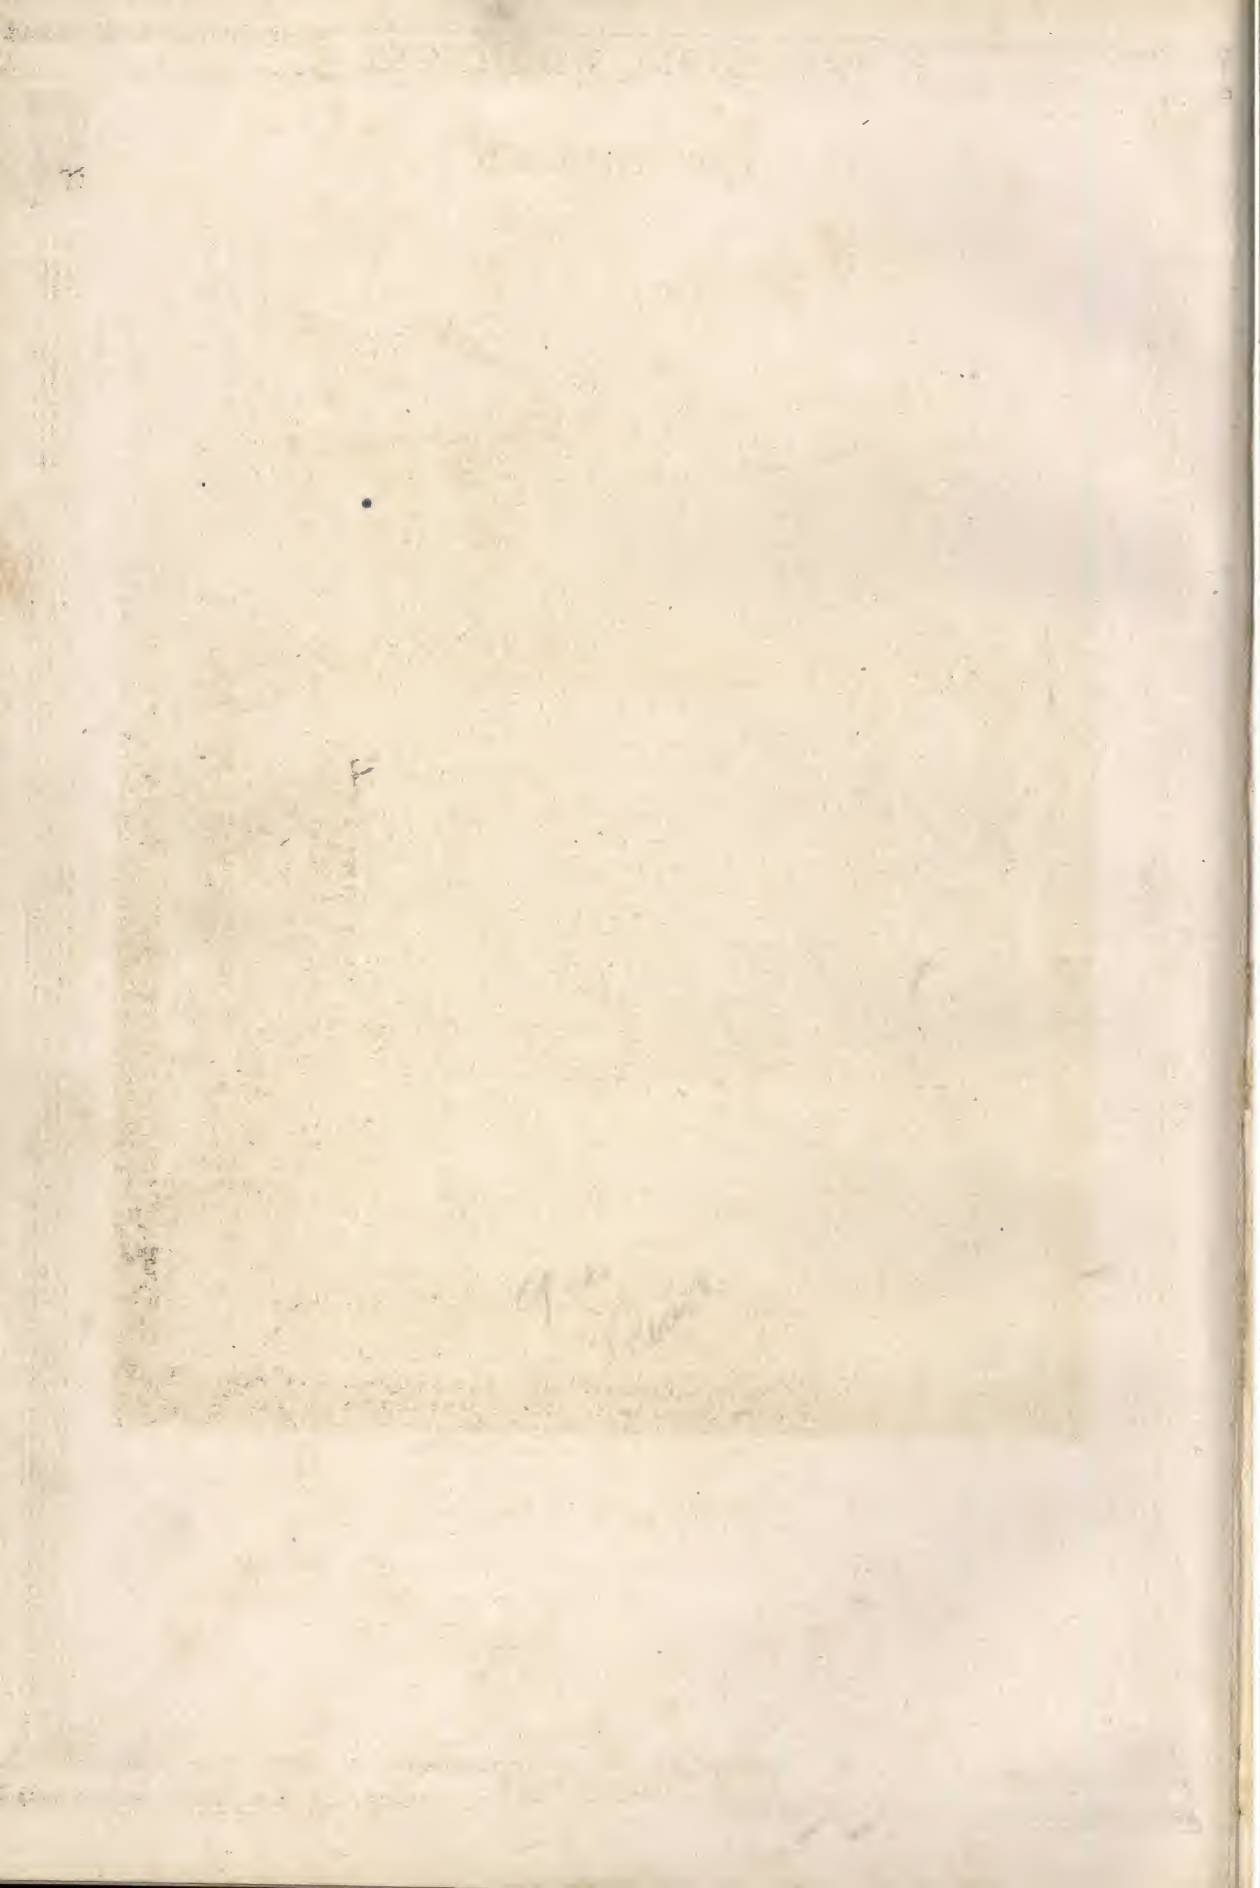

## *Long-Bell Colonnades*

The colonnade solves many a perplexing problem of space and arrangement. The colonnade gives spaciousness to two rooms thus thrown together, yet preserving the identity of each room. Then, too, most designs of colonnades provide spacious shelves or desks, a practical and useful feature in most homes.

58-A

**Long-Bell Woodwork**

## COLONNADES

LB-350

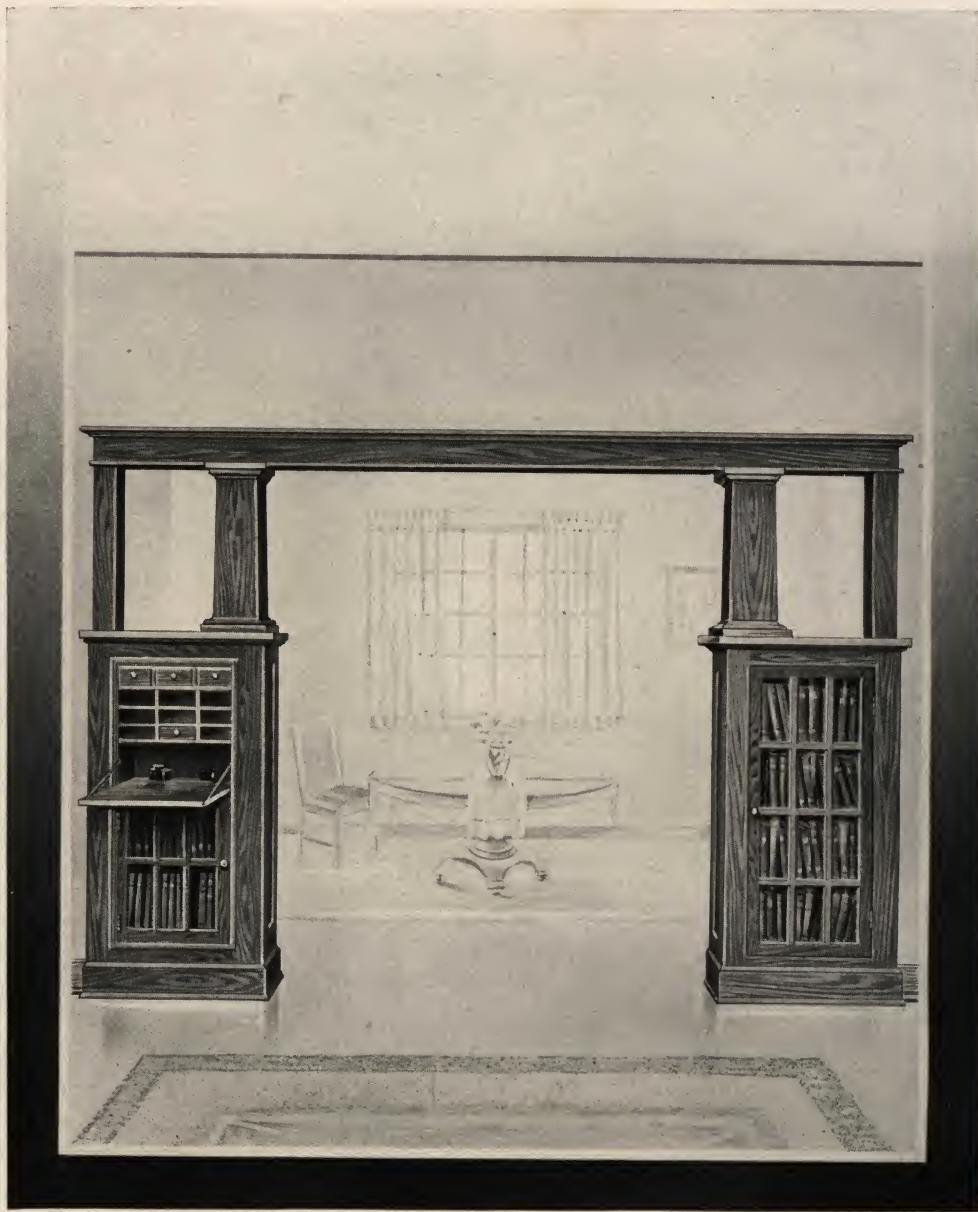

LB-351

*Furnished in Oak or Yellow Pine*

A plain style of Long-Bell colonnade, available as shown with either the round or square column, that has proved its popularity generally.

# COLONNADES

LB-352

LB-353

*Furnished in Oak or Yellow Pine*

Convenient desk and shelf space is embodied in this attractive Long-Bell colonnade. The reverse side of each pedestal is finished in panels. If desk is not desired, Design LB-353 can be furnished also for the left pedestal.

## COLONNADES

LB-354

*Furnished in Oak or Yellow Pine.*

A bookcase arrangement, its attractiveness heightened by the leaded glass shown, which provides a quite serviceable colonnade with large opening.

# COLONNADES

LB-355

*Furnished in Oak or Yellow Pine.*

All Long-Bell colonnades are well built, so that for any substantial construction they provide a known, dependable product.

# COLONNADES

LB-356

*Furnished in Oak or Yellow Pine*

Important to the builder are the features of utility, attractiveness and substantial construction in colonnades—features which have first consideration in Long-Bell plants.

# COLONNADES

LB-357

LB-358

*Furnished in Oak or Yellow Pine*

The bookcase and desk combination is here shown in wider pedestals, providing desk and shelf spaciousness much to be desired by many home builders.

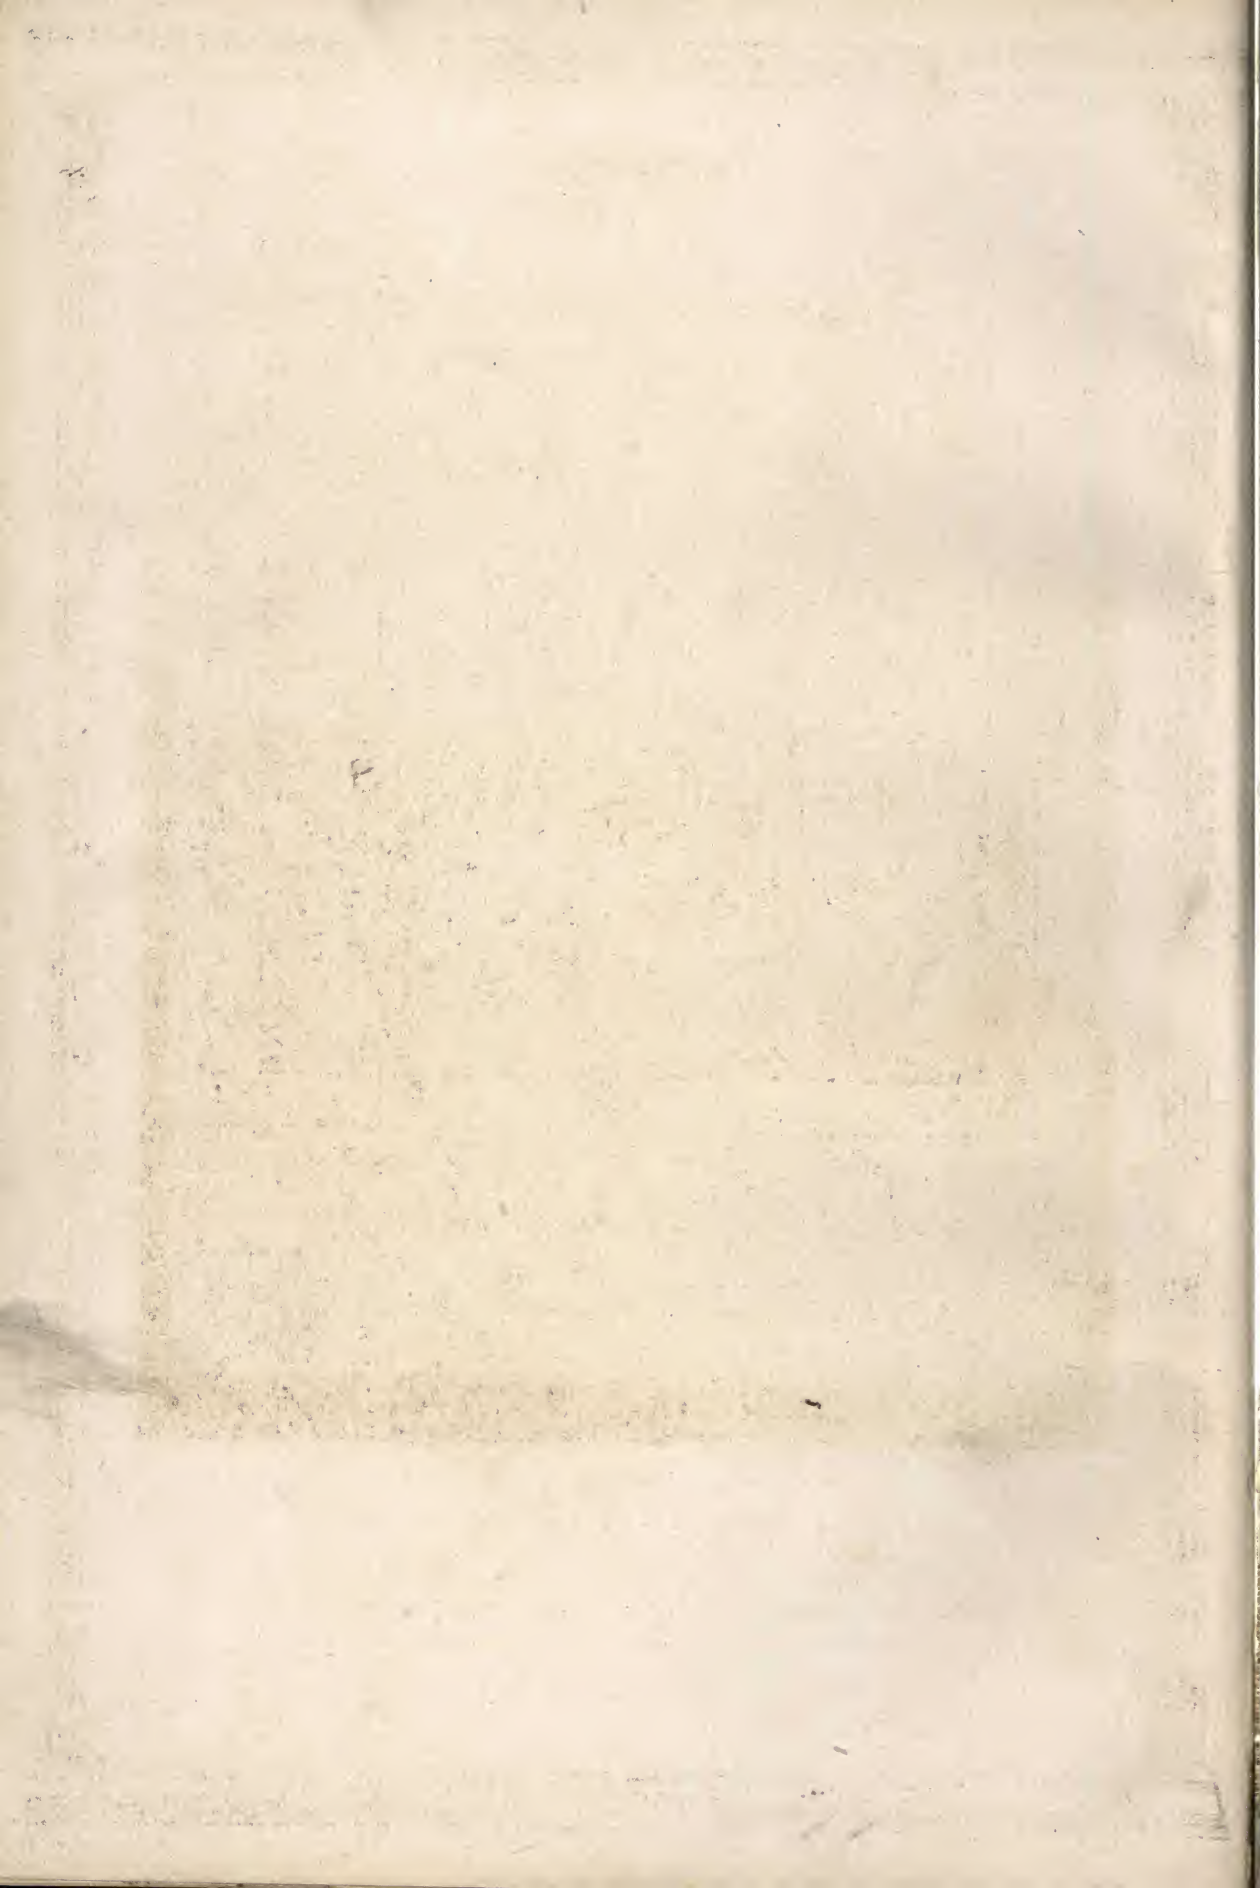

## *Long-Bell Built-In Work*

Built-in work offers to the home builder the most permanent furniture available—buffets, cabinets and the like made a part of the house itself—finished to harmonize with the surroundings—a valuable and step-saving innovation for modern home-builders.

## BUFFETS

LB-400

*Furnished in Oak or Yellow Pine*

Increasingly popular and useful are such pieces of built-in furniture as buffets. Such a design, as shown above, will both add to the attractiveness and better the appointments of a dining room.

# BUFFETS

LB-401.

*Furnished in Oak or Yellow Pine.*

When installed, these beautiful buffets become a fixed part of the dining room; a substantially constructed, practical part of the home itself, giving the home added value and charm.

## SIDEBOARDS

LB-402

*Furnished in Oak or Yellow Pine*

Built-in sideboards provide much space for chinaware and other articles of dining room use. This design of sideboard is attractive and modern and will meet many requirements.

## SIDEBOARDS

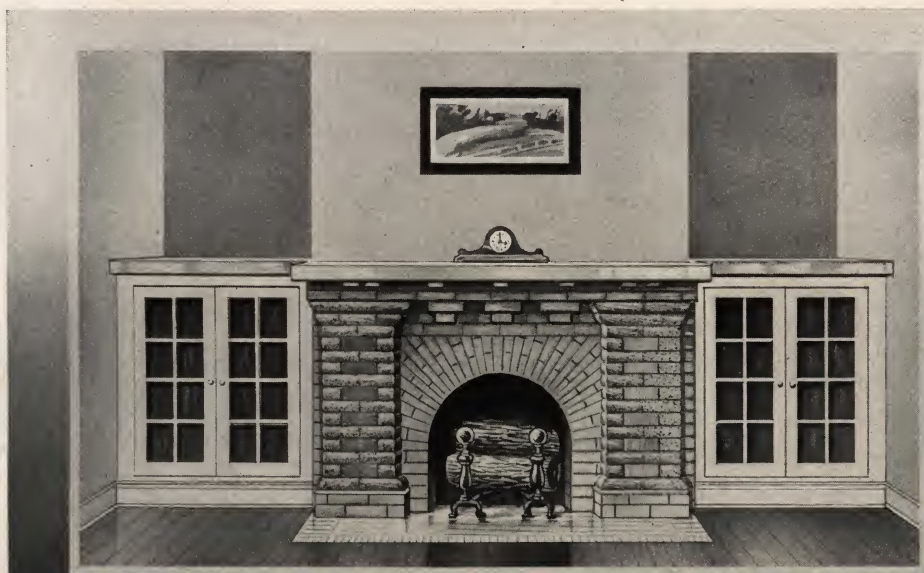

**LB-403**

*Furnished in Oak or Yellow Pine*

Though simple in design, this sideboard provides an attractive built-in piece for any dining room, with spaciousness an important feature of its arrangement.

# MANTELS

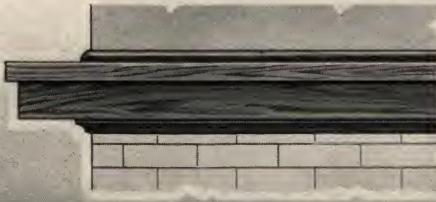

Above, LB-425

Below, LB-426

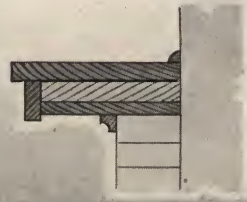

The two Long-Bell designs pictured here show not only attractive mantels, but also suggest the possibilities of building into the living room a cozy, useful "room end," either with seats or bookcases.

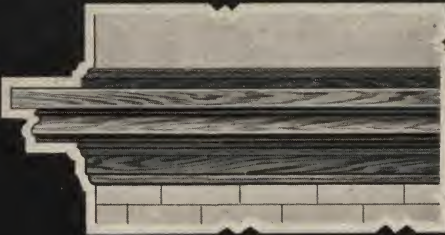

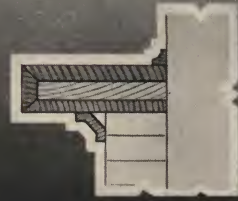

# MANTEL SHELVES

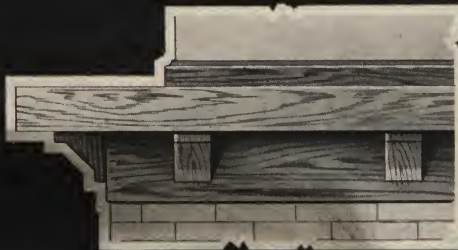

LB 440

LB 441

LB 442

LB 443

In these designs may be found a type of mantel shelf fitting nicely the type of interior woodwork of a room, and providing added attractiveness for that room.

# PANEL WAINSCOTING

Above, LB-450

Below, LB-451

*Shown in Plain Red Oak*

Used properly, panel wainscoting makes a popular appeal to home builders, often for use in combination with beamed ceilings.

## PANEL WAINSCOTING

Above, LB-452

Below, LB-453

*Shown in Plain Red Oak*

Panel wainscoting for certain rooms is sometimes preferred to any other wall covering, principally because it does not have to be replaced at intervals, requiring only occasional polishing.

## PANEL WAINSCOTING

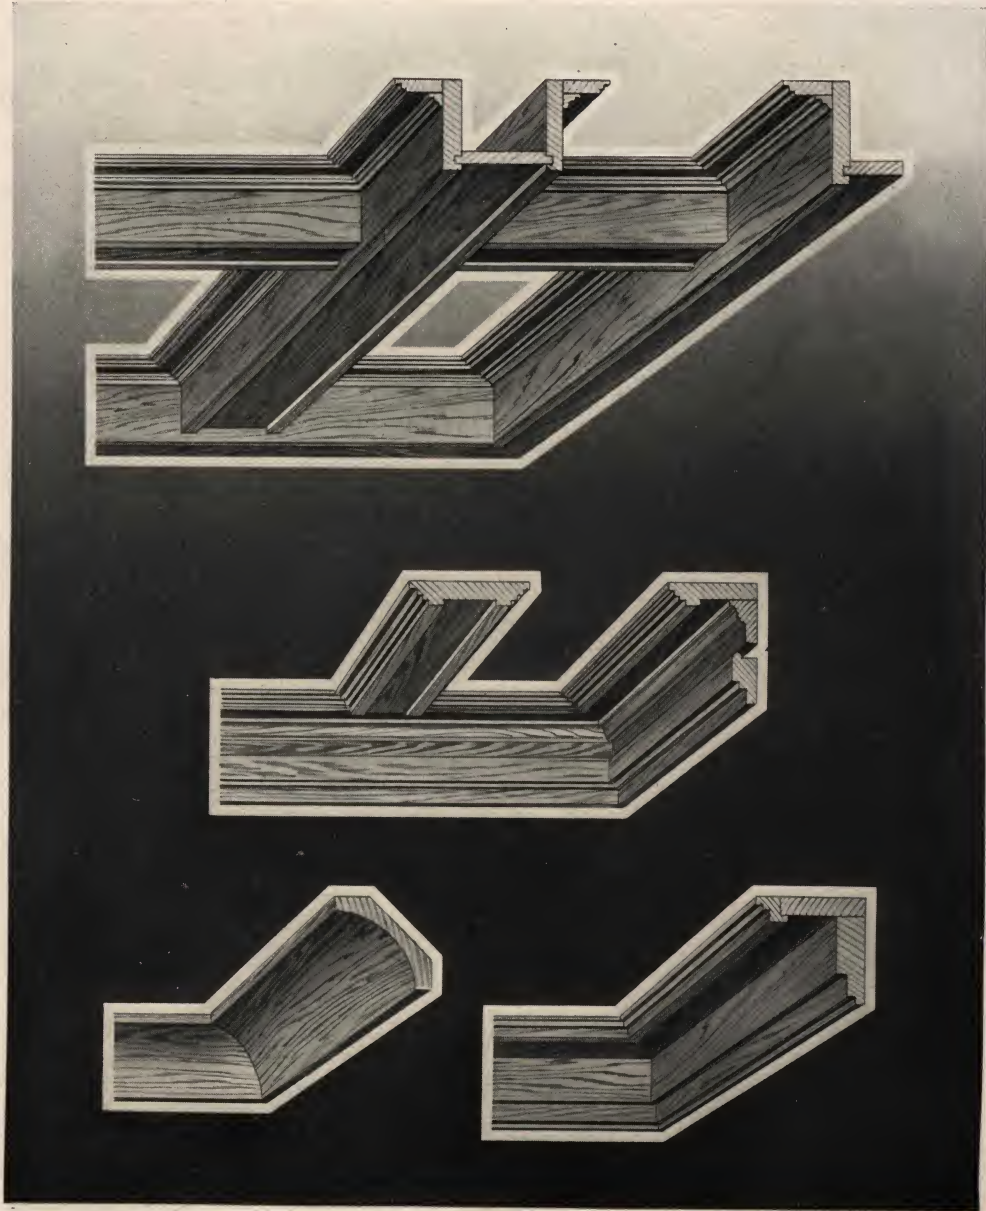

Above, LB-454

Below, LB-455

Skeleton paneling offers a combination effect, in which contrast is afforded with the wood panels by use of burlap or rough plaster.

## CEILING BEAMS

Above, LB-475

Center, LB-476

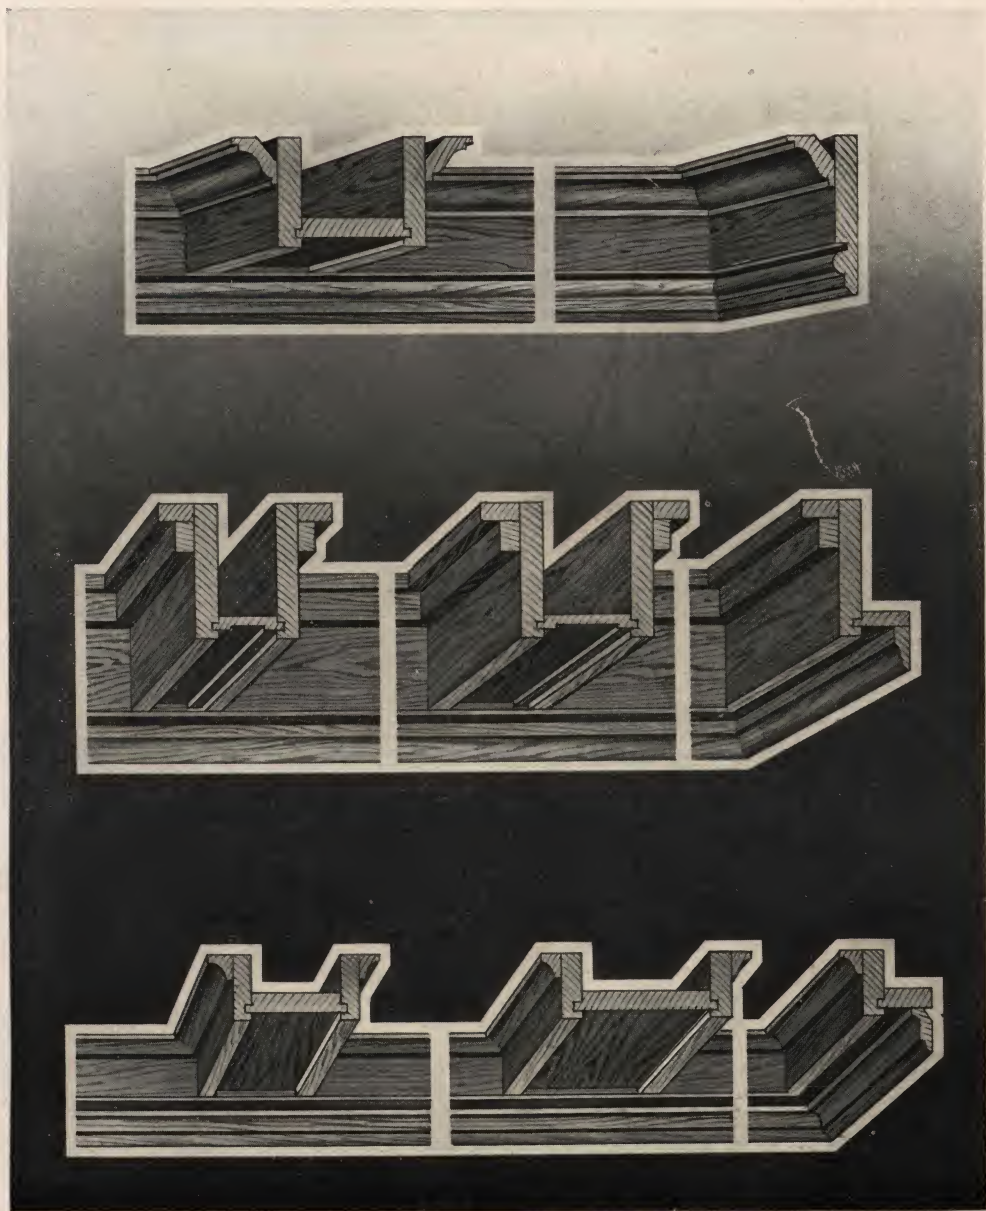

Lower left, LB-477

Lower right, LB-478

Beamed ceilings have become increasingly popular, particularly in dining and living rooms. The beamed ceiling carries a very pronounced effect, the expanse of wood giving tones and contrast to the interior.

## CEILING BEAMS

Above, LB-479

Center, LB-480

Lower, LB-481

Sometimes, to good effect, beamed ceilings are used in combination with panel wainscoting. Such combinations may be chosen from designs illustrated in the preceding pages of this book.

## VENEER PANELS

LB 490

LB 491

LB 492

LB 493

**LB-490** *White Pine*

**LB-492** *Birch*

**LB-491** *Plain Red Oak*

**LB-493** *Gum*

A beautiful effect is possible in the use of veneer paneling with the wainscoting shown on pages just preceding. Walls so finished have permanency and maintain a charm not found in other wall coverings.

## *Long-Bell Breakfast Rooms*

Rapidly increasing popularity has made the breakfast room a permanent part of the American small home. It is a practical, useful addition to any home. These Long-Bell designs provide easily adaptable, attractive breakfast room sets for any home.

76-A

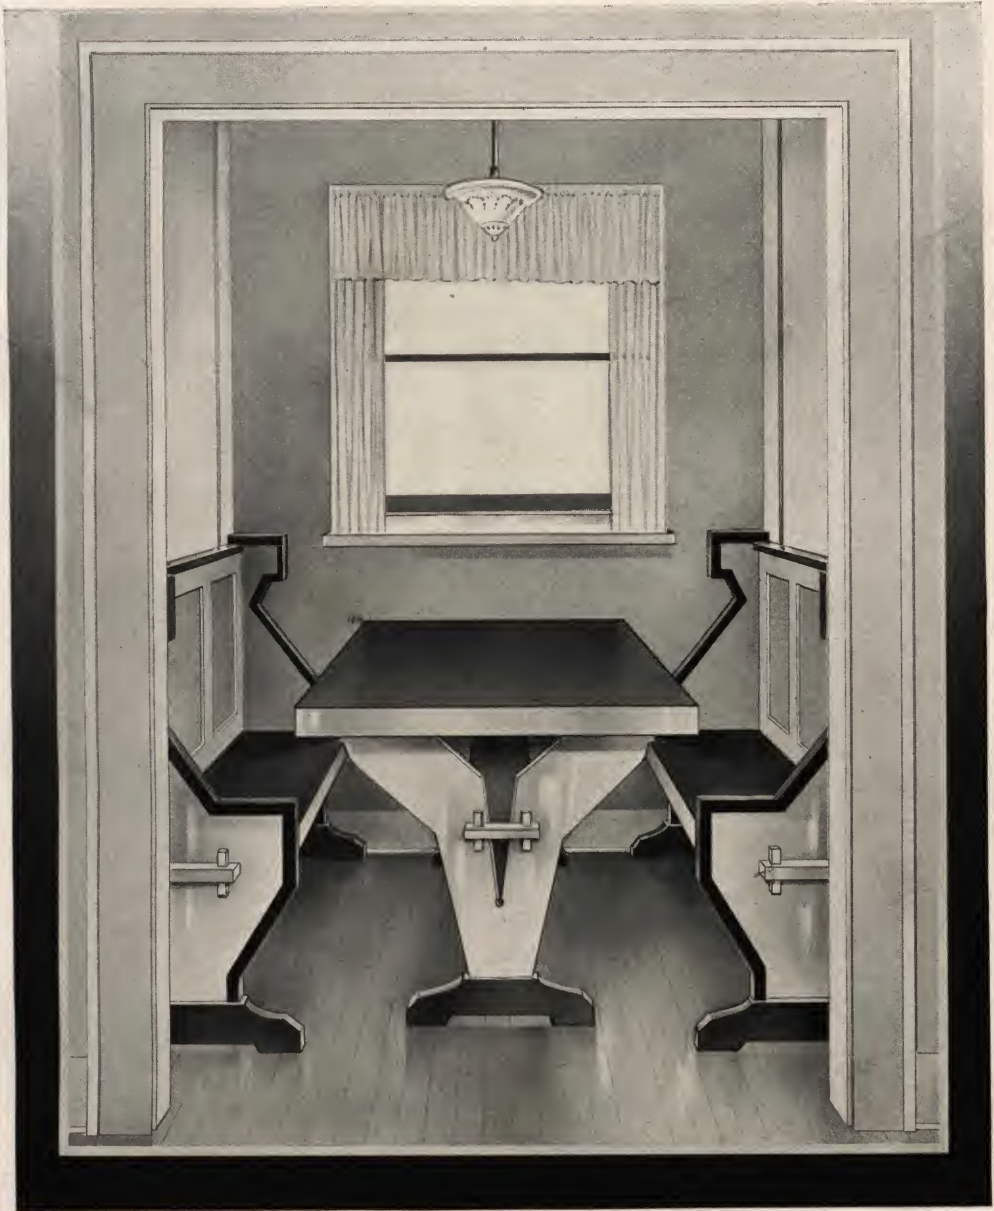

**Long-Bell Woodwork**

## BREAKFAST NOOKS

LB-500

The breakfast room is one of the most convenient and time saving arrangements of the modern home. In this Long-Bell design is pictured a breakfast room of the best type, its coziness combined with practical usefulness.

## BREAKFAST NOOKS

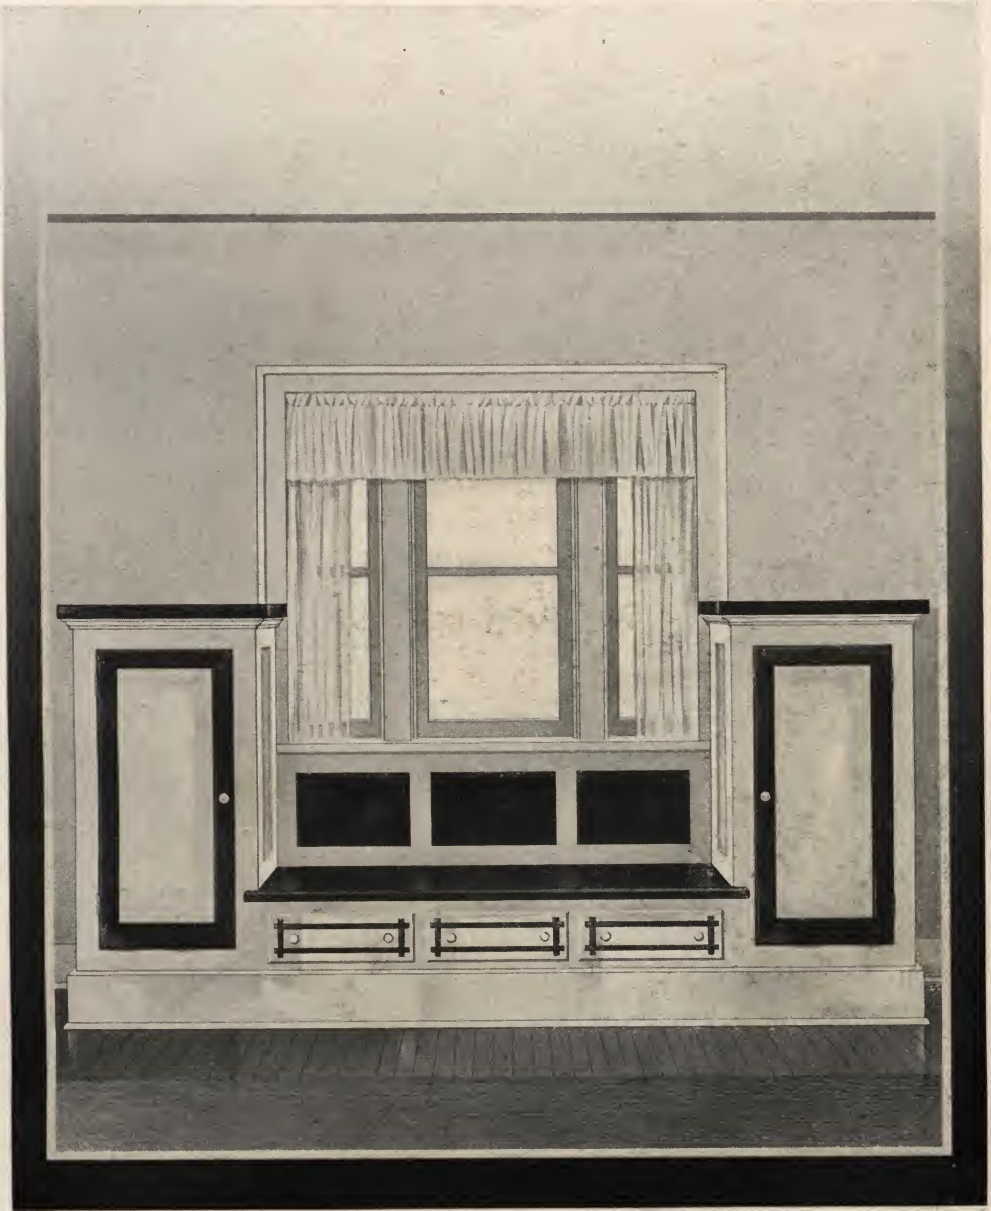

LB-501

The permanent value of such a breakfast room as this in any home is assured by substantial construction—a Long-Bell design pleasing and practical.

## WINDOW SEATS

LB-510

*With Cedar Closets*

Often window seats may be used to advantage in the bedroom. The above arrangement includes, for such a purpose, good closet and drawer space. The compartments on either side are lined with cedar.

## WINDOW SEATS

LB-511

The window seat often lends added coziness to a room, in addition to its practical uses. This Long-Bell design is typical of the attractiveness of substantial window seats.

# BATHROOM SET

LB-525

Utility and attractiveness in bathroom fixtures may be had in such an arrangement as pictured above. The medicine cabinet is shown individually on the following page. The floor cabinets provide the utmost spaciousness.

# MEDICINE CABINETS

LB-530

LB-531

A bathroom without a medicine cabinet is incomplete. These Long-Bell cabinets provide practical, economical shelf and drawer space for medicines and other small articles.

## HALL OR LINEN CLOSET

LB-550

The housewife appreciates the convenience and importance of a hall or linen closet. The door may be chosen to conform with other doors in the hall.

# HALL OR LINEN CLOSET

LB-551

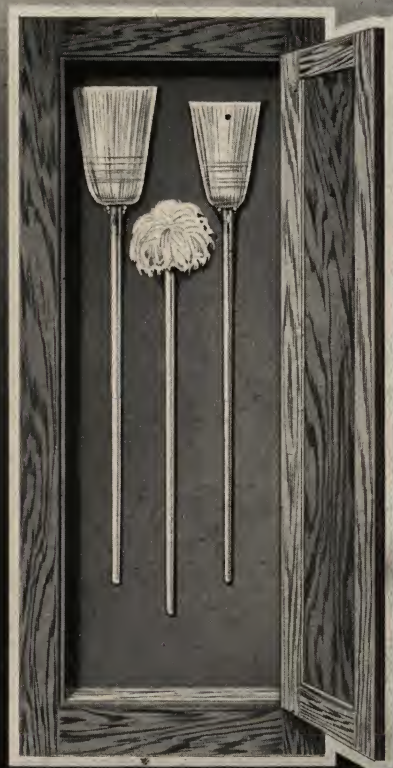

This Long-Bell closet affords plenty of room for the linens and "extras" in the ordinary home. The top compartment is fitted up with shelves.

## IRONING BOARD AND BROOM CLOSET

LB-552

LB-553

Another convenient built-in arrangement is the ironing board and broom closet, providing out-of-the-way space for keeping these necessary articles while not in use.

## KITCHEN CABINET

LB-575

Kitchen cabinets are a modern necessity. The Long-Bell built-in cabinet is substantial, a permanent part of the kitchen, and arranged to accommodate conveniently the housewife's daily needs.

## KITCHEN WORK TABLES

LB-580

LB-581

These Long-Bell kitchen work tables are built for service and labor-saving convenience—work tables that are built substantially and to give the utmost satisfaction in daily use.

# KITCHEN "ROOM-END"

LB-590

The housewife of to-day likes to have everything just within reach. The "room-end" will appeal to the housekeeper. Note the convenient location of the sink, placed in the center where one may reach to the cabinets with ease.

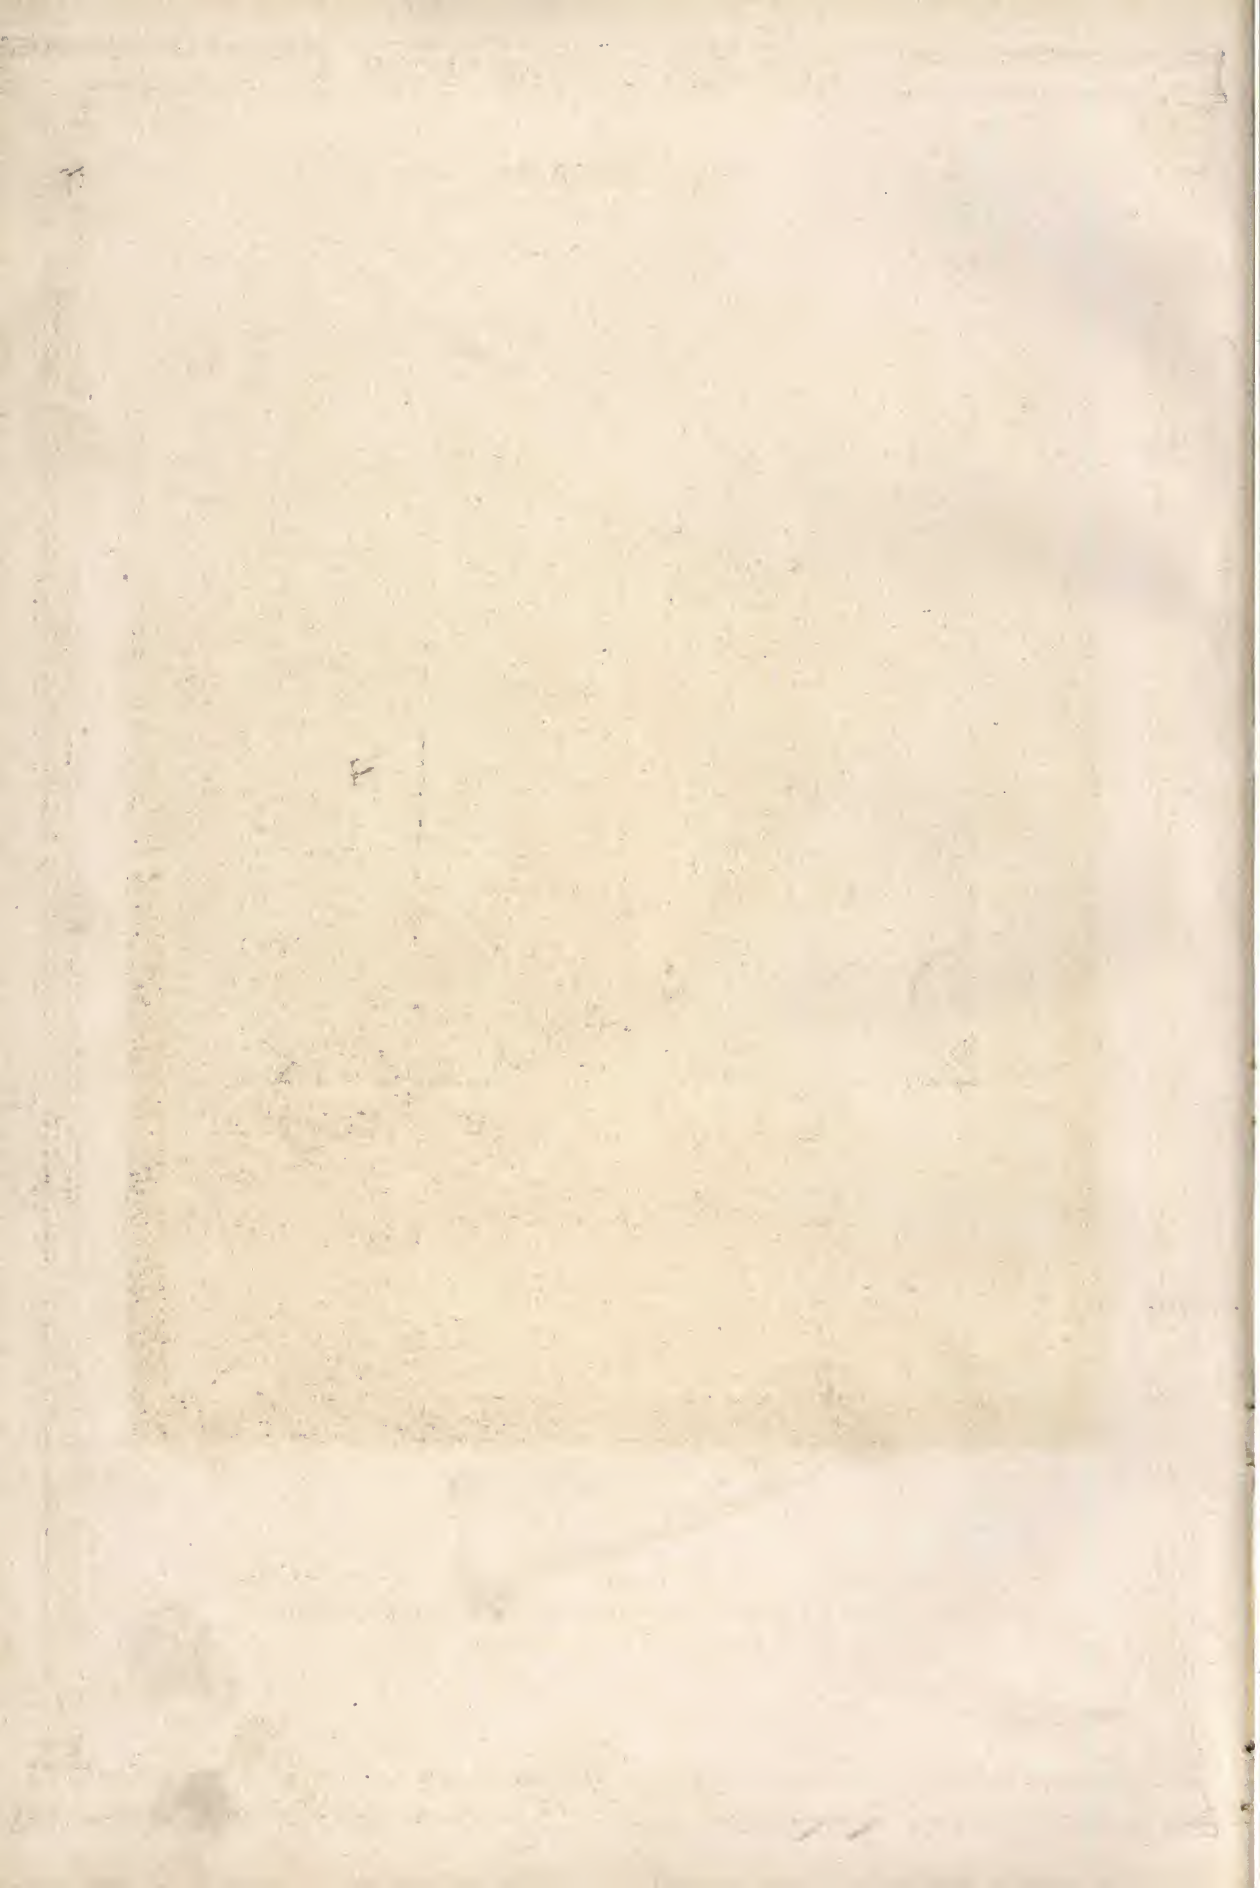

## *Long-Bell Stairwork*

The stairway must be both practical and attractive, particularly since it is often placed in the entrance hall or the living room. Designs of stairways covering every general need are shown in the following pages.

## STAIRWAYS

LB-600

This Long-Bell design shows a plain, substantial stairway. Long-Bell stairwork is built with its practical use in mind; and, too, to provide designs pleasing and varied.

## STAIRWAYS

LB-601

The bookcase in the above design may be omitted and the wall paneled. As it is, this design is very attractive, particularly for a stairway ascending from the living room.

## STAIRWAYS

LB-602

This Long-Bell design suggests not only a pleasing arrangement of stairwork, but its attractiveness is heightened in the contrasting finish, a suggestion applicable in the treatment of other stair designs.

## STAIRWAYS

LB-603

The combination of Long-Bell stairwork here forms a plain, practical design, with a seat utilizing the space adjoining the stairway.

## STAIRWAYS

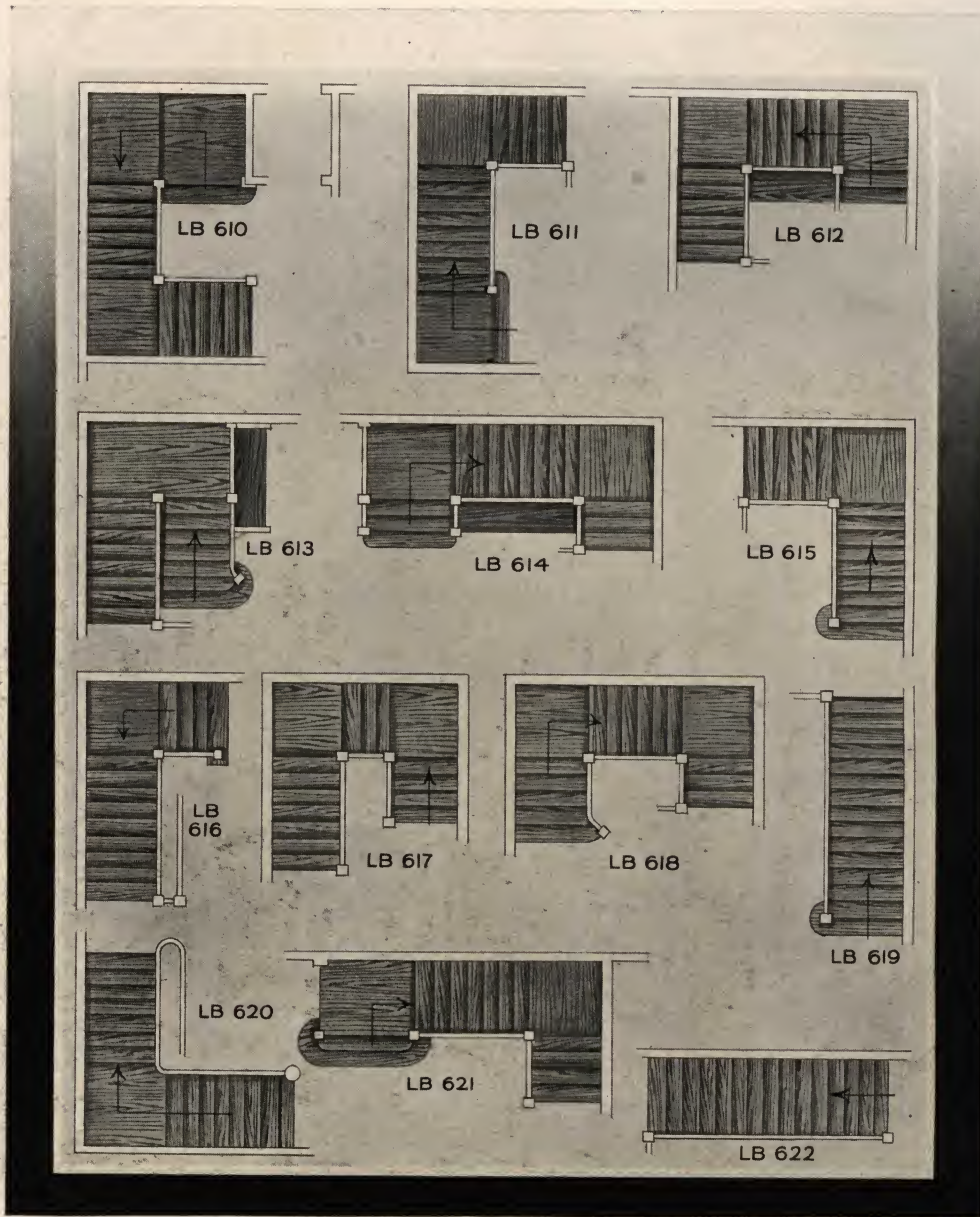

LB-604

This is a plain design in which every dust-collecting "ledge" has been eliminated, utilizing instead plain items of stairwork.

# STAIR PLANS

A page of standard stair plans suggesting varied arrangements to meet general requirements.

## STAIR NEWELS

LB-626

LB-627

LB-628

LB-629

Here are substantial designs of Long-Bell stair newels; selection, of course, should be made with respect to the balance of the stairwork in general design.

## ANGLE OR LANDING NEWELS

LB-635

LB-636

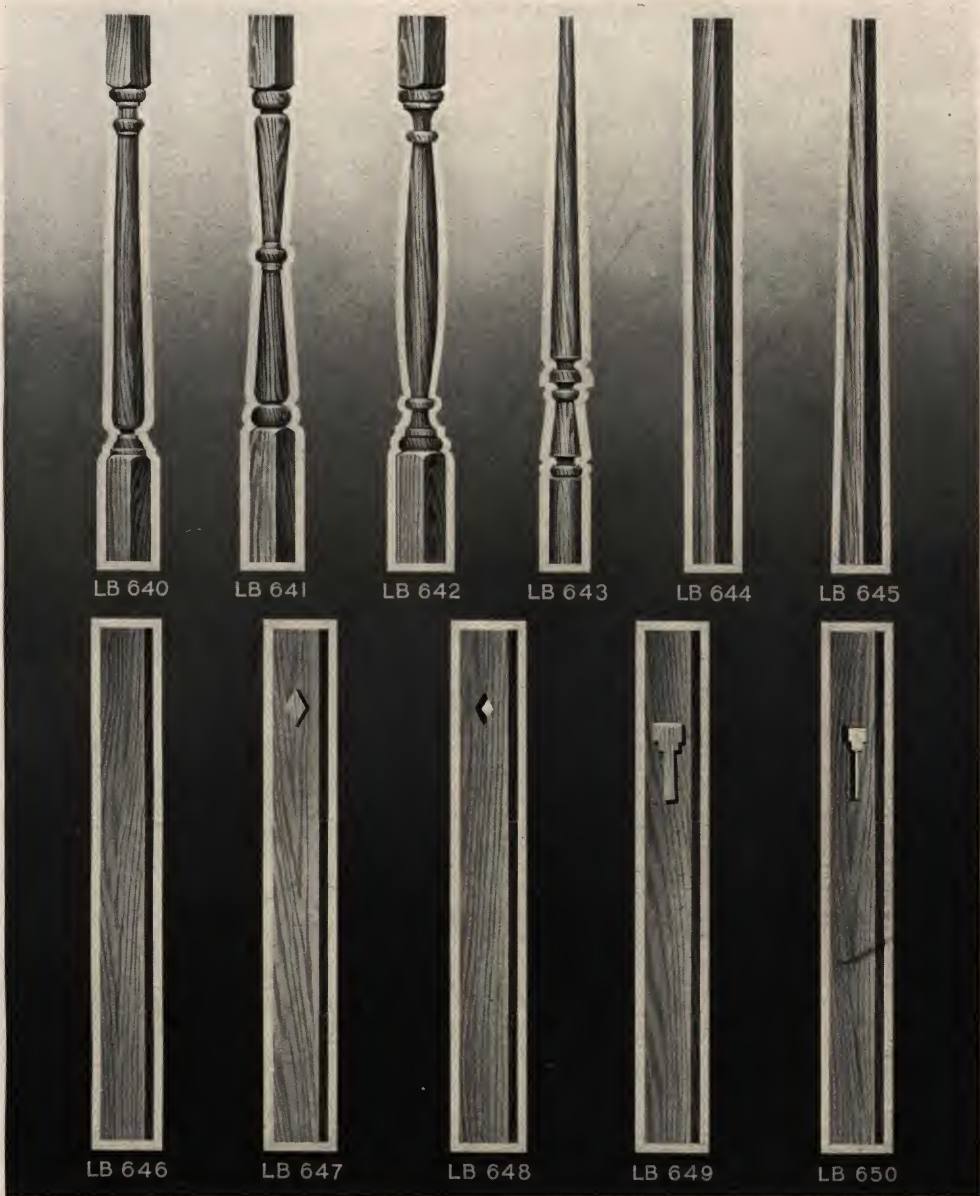

LB-637

LB-638

These Long-Bell angle or landing newels are illustrated here to permit the proper selection of designs fitting in with other stairwork.

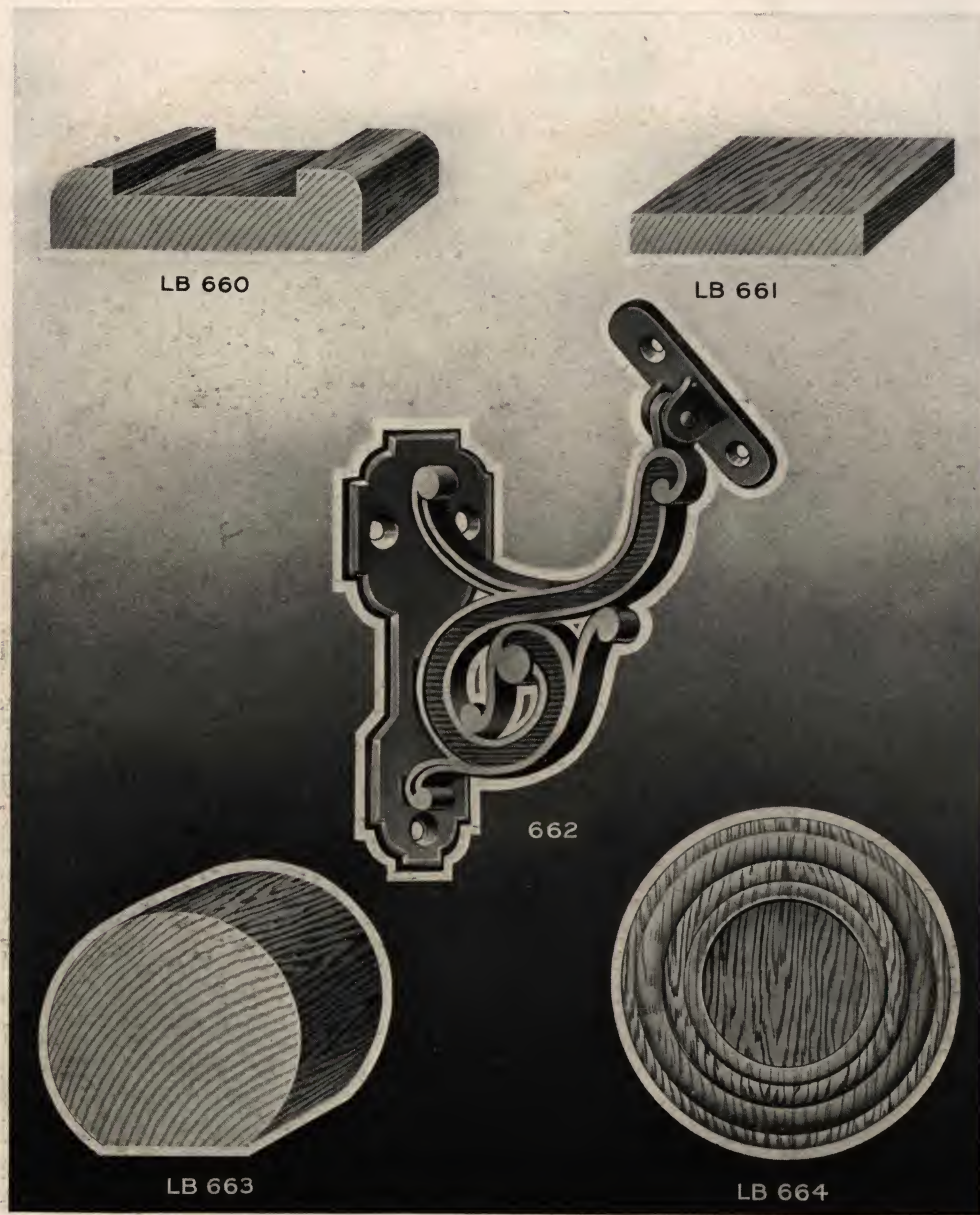

# STAIR BALUSTERS

In the varieties of designs shown above will be found balusters for practically every style of stairway. Certainly one may be found to please individual tastes and meet practical needs.

STAIR RAILS, ROSETTES, SHOE, ETC.

LB-660 is a base shoe for stair balusters to fit in.

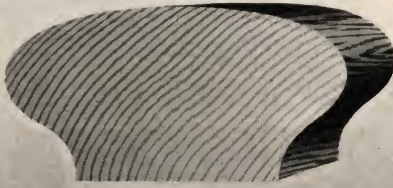

LB-661 is a fillet moulding to fit in base shoe between balusters.

LB-663 is a round rail for general use, with rosette.

LB-664 and the bracket designed to be used in connection.

# STAIR RAILS

LB 665

LB 666

LB 667

LB 668

LB 669

LB 670

These Long-Bell stair rails are suggestions in design planned to meet general requirements and to aid in giving the most attractiveness possible to the completed stairway.

## STAIR STRINGS AND STARTING TREADS

Well built Long-Bell stair strings and starting treads assure substantial  
stairway construction and complete satisfaction to the builder.

## *Long-Bell Porch Work and Lawn Furniture*

In American small homes the porch, the arbor and lawn furniture of varying designs have developed an increasing popularity. Here are shown Long-Bell porch work and attractive pieces designed for lawn use.

100-A

**Long-Bell Woodwork**

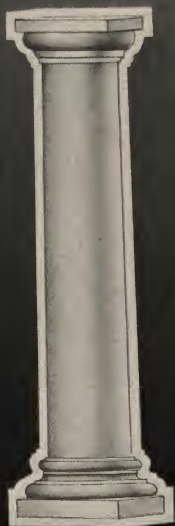

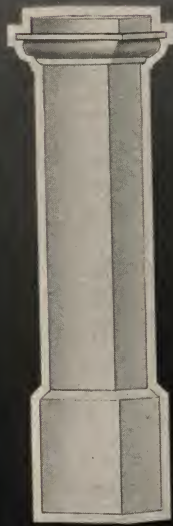

# COLONIAL COLUMNS

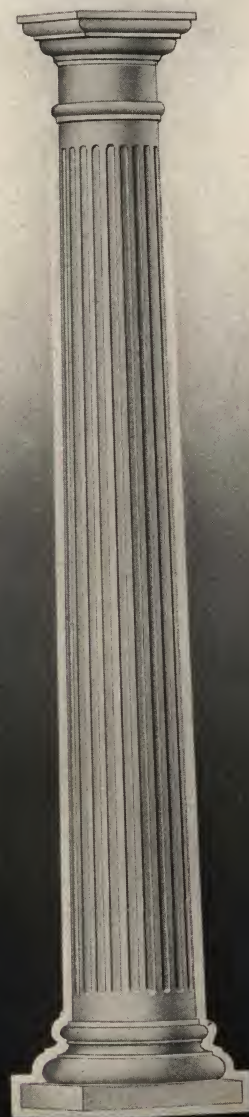

LB-700

LB-704

LB-705

LB-701

These Long-Bell colonial columns are made to meet building requirements both as to appearance and durability.

# COLONIAL COLUMNS

LB-710

LB-711

LB-712

Here is the square column in three patterns—plain, paneled and fluted  
—in Long-Bell designs built for permanence.

# PORCH COLUMNS

LB-720

LB-721

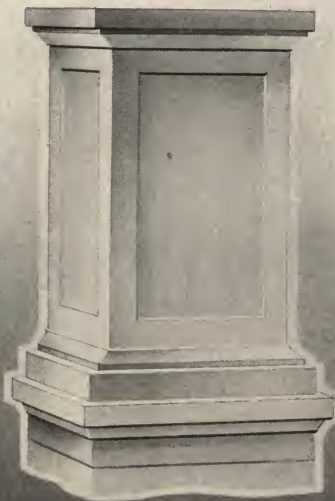

The double column is often particularly effective in appearance, providing additionally strong support for the roof.

## PORCH COLUMNS AND NEWELS

LB 725

LB 726

LB 727

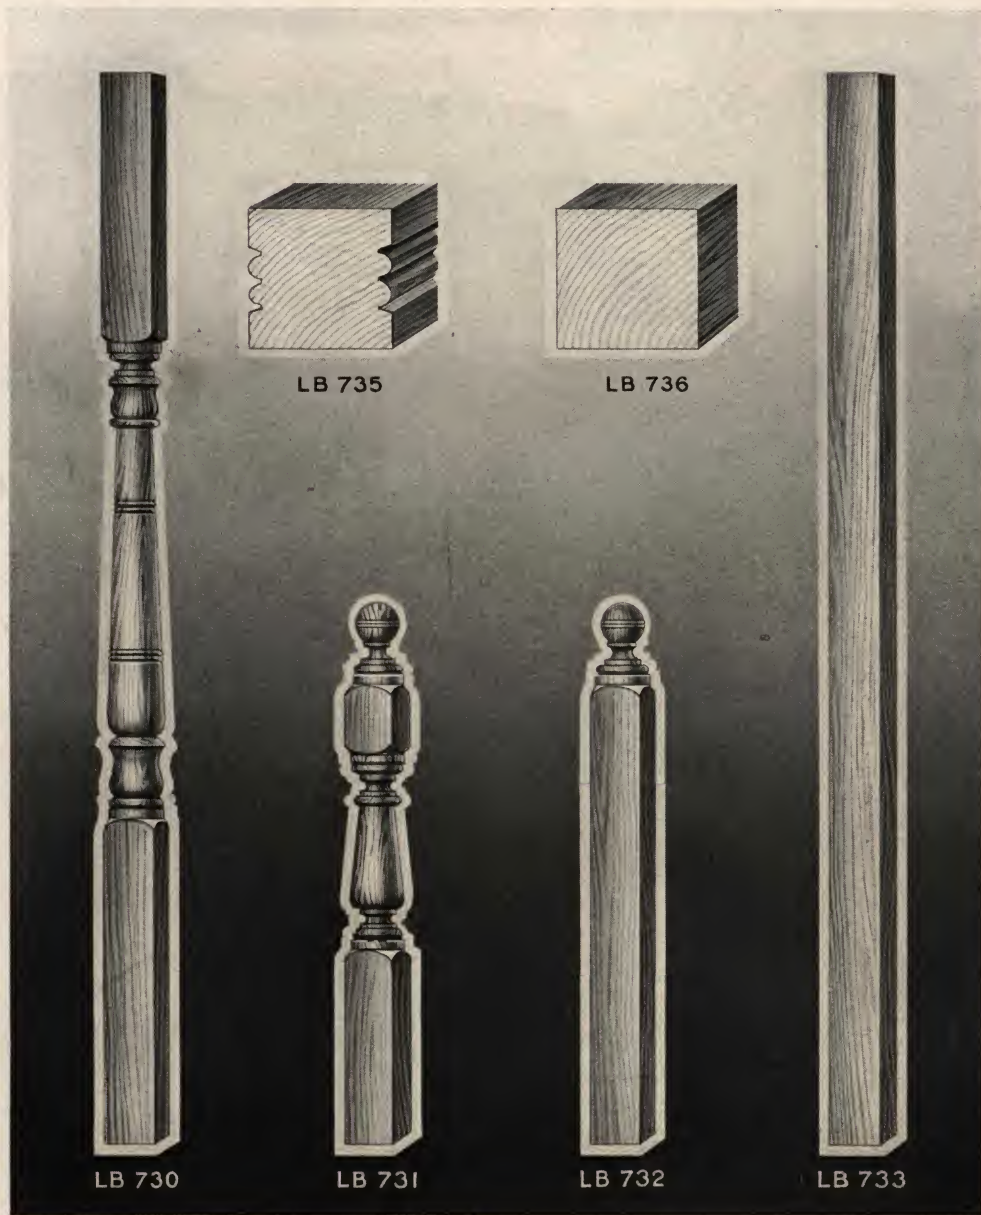

LB 728

Every part of the porch is exposed to weather. Durability, then, is an important feature of porch work construction—a feature to be had in Long-Bell designs.

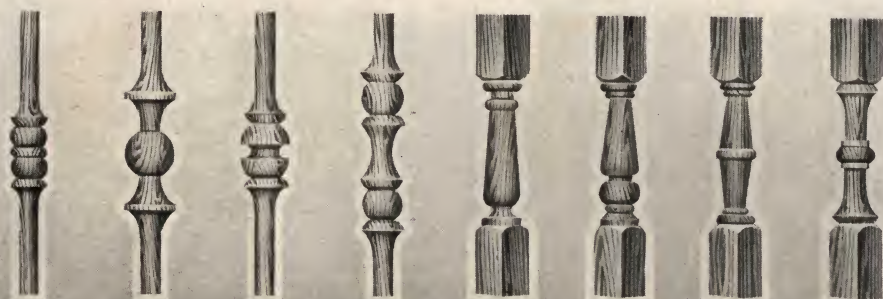

PORCH COLUMNS, NEWELS AND BALUSTERS

Long-Bell porch work is made, first of all, with consideration of its utility and permanence.

# PORCH SPINDLES AND BALUSTERS

LB 740    LB 741    LB 742    LB 743    LB 744    LB 745    LB 746    LB 747

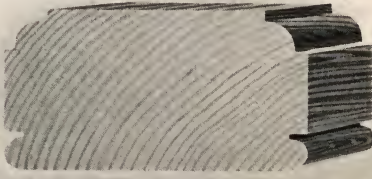

LB 750    LB 751    LB 752    LB 753    LB 754    LB 755

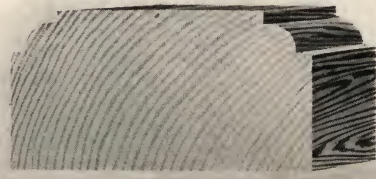

A wide variety of Long-Bell porch spindles and balusters, giving the opportunity for selection of designs most pleasing to individual taste.

## PORCH RAILS

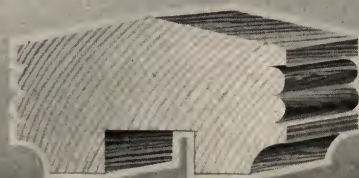

LB 760

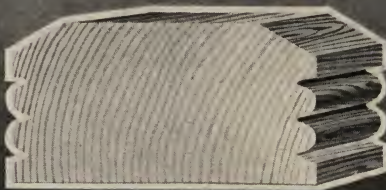

LB 761

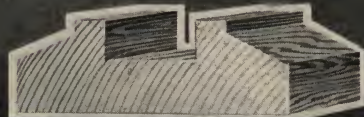

LB 762

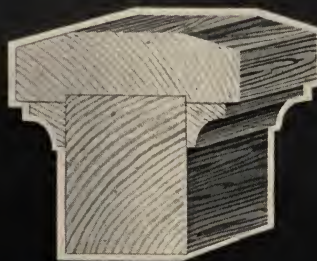

LB 763

LB 764

LB 765

LB 766

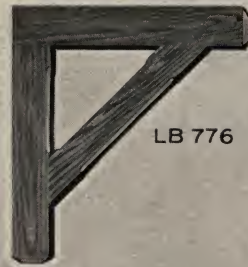

Porch rails of pleasing design, adaptable to the requirements of any builder.

# ROOF BRACKETS

LB 775

LB 776

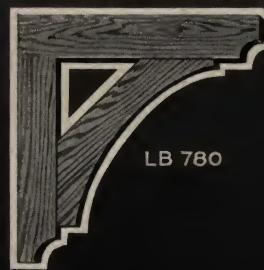

LB 777

LB 778

LB 779

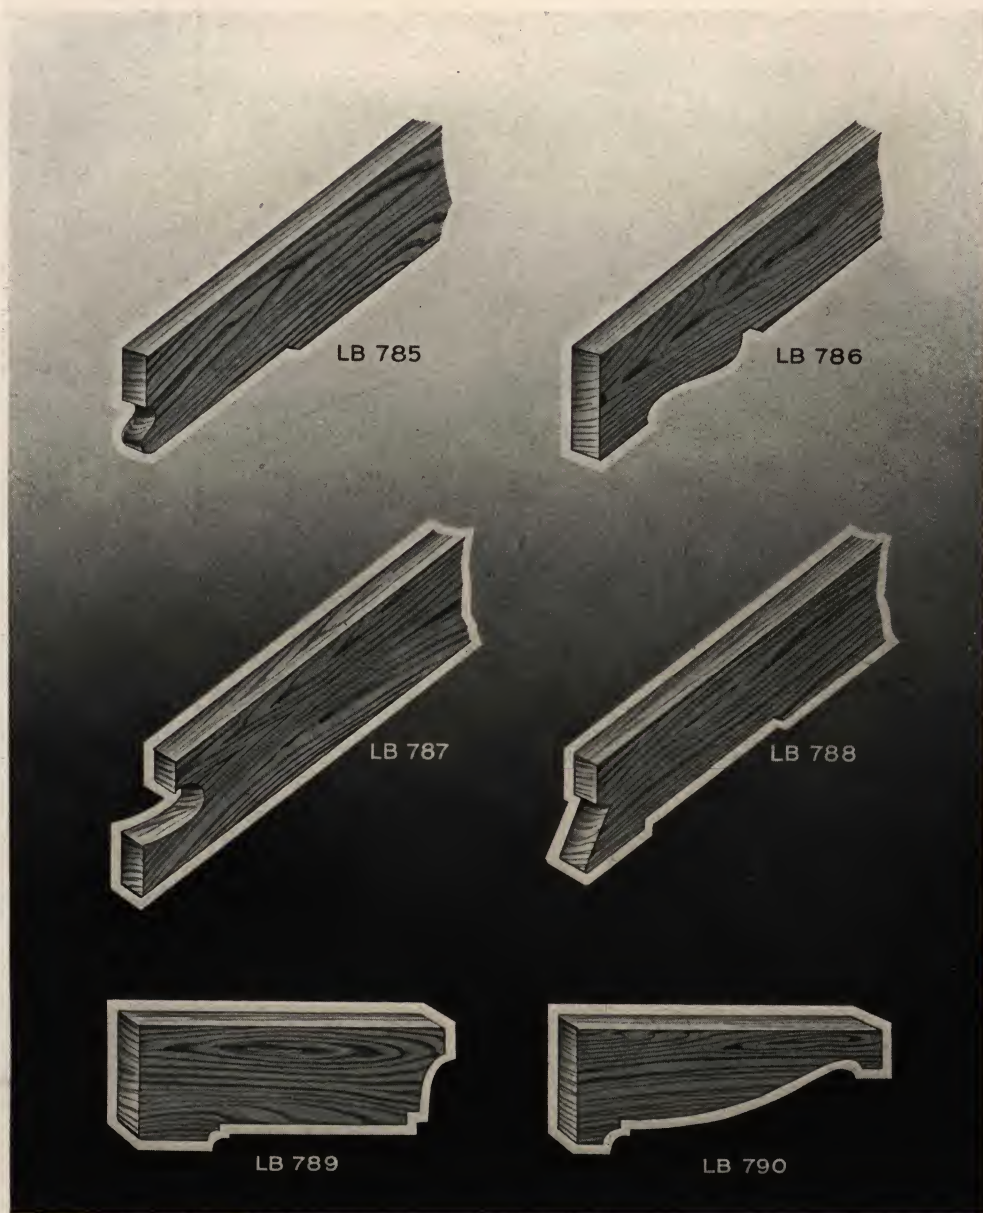

LB 780

Roof brackets are used in the construction of the wide overhanging roof, and may be had in these plain, substantial designs.

## RAFTER ENDS AND BAY BRACKETS

Rafter ends are for use in the construction of homes with extended roofs, while bay brackets are used for bays or extensions.

# PERGOLAS

LB-800

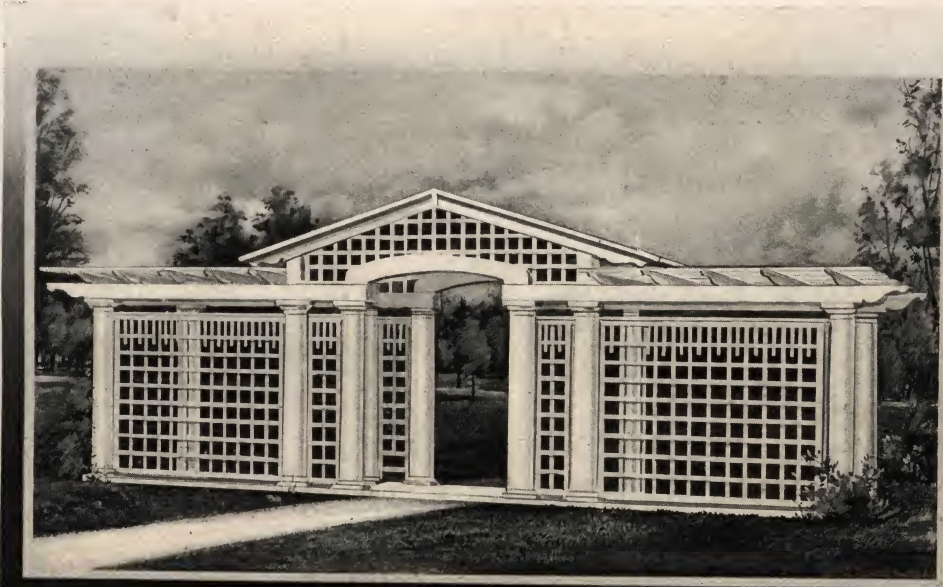

LB-802

LB-804

Wood used in the construction of pergolas, arbors and lawn furniture further enhances the value and the charm of a home and its setting.

## PERGOLAS

LB-806

LB-808

Several Long-Bell designs are shown here in practical suggestions for the informal treatment of home grounds, large or small.

## STORE FRONTS

One of the foremost needs of the retail store is a modern front, providing adequate display window space.

Such fronts are required in new store buildings. In old buildings, too, new fronts are being installed, the remodeled building offering entirely new and profitable advantages to the merchant.

Often lumber dealers have found a substantial interest among building owners in remodeling an old store building. The suggestions here will be of value both to the

lumber dealer and the merchant.

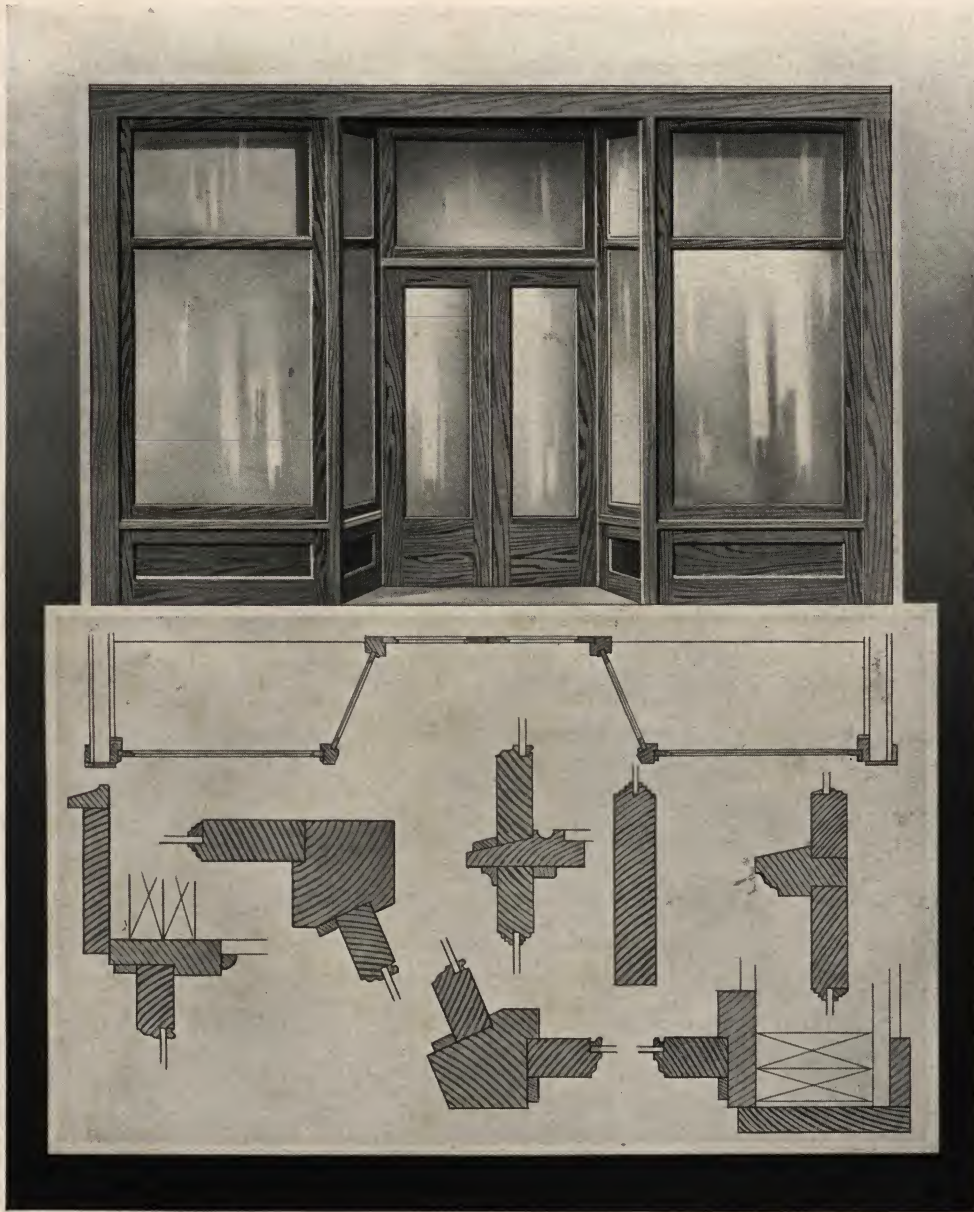

A standard design of front is shown—one with center entrance, the other with side entrance.

A front of this sort will add materially to the value of a building and will increase its value to the merchant through adequate display space available.

In every town and city are business properties that can be so improved. We would be glad to be of any service possible to lumber dealers who have any of this sort of work in prospect.

# STORE FRONTS

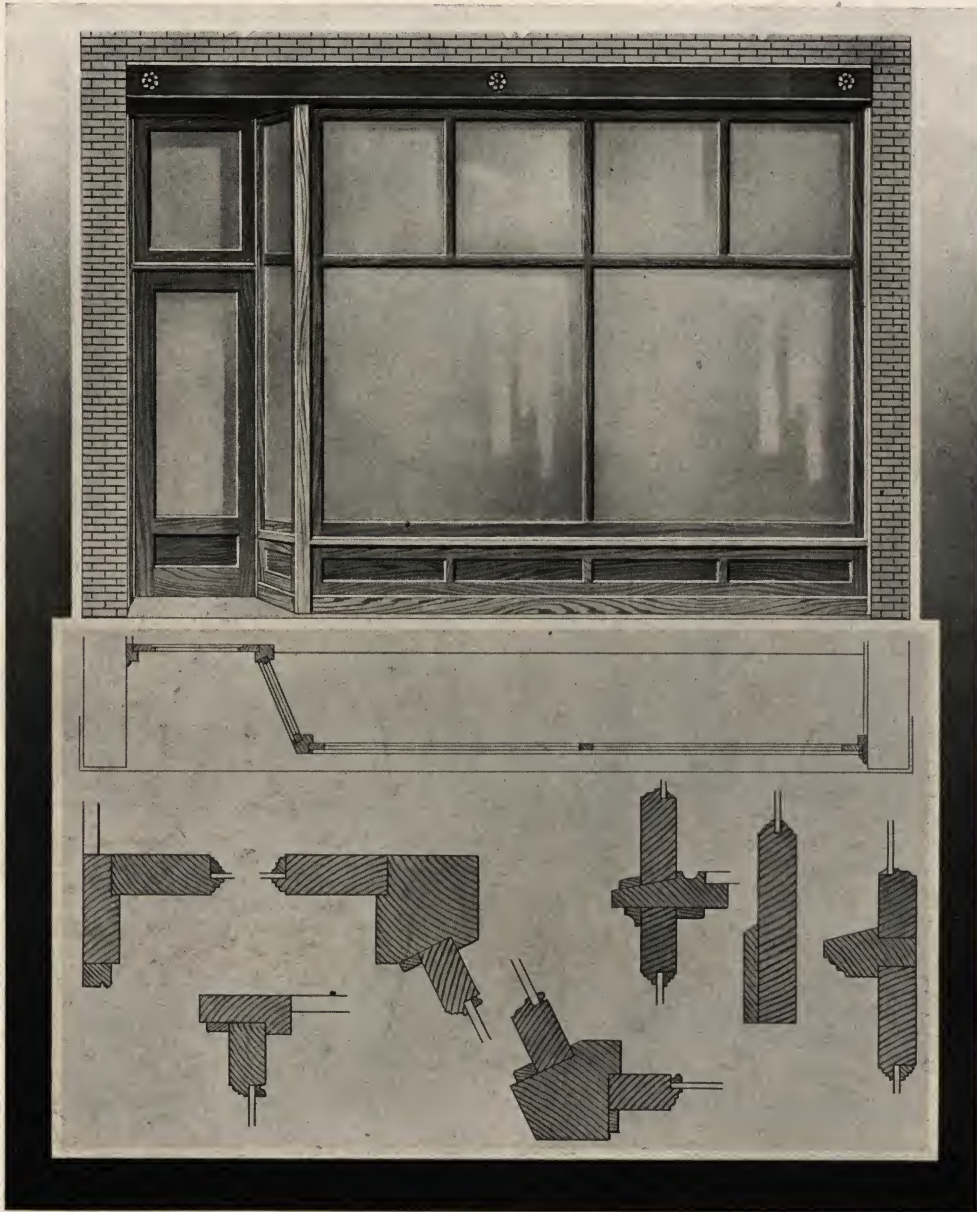

LB-900

A practical store front with center entrance, allowing adequate display facilities on either side.

# STORE FRONTS

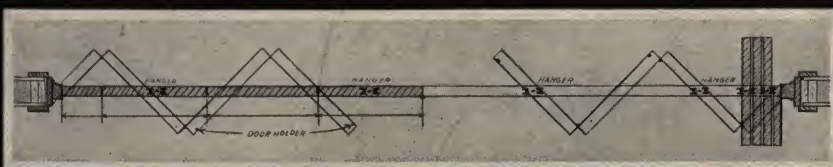

LB-902

A design of store front with side entrance which will appeal to store building owners as both an attractive and practical store front, for one reason because of the larger display space available.

## FOLDING DOORS

LB-950

For use in churches, auditoriums, schools, and elsewhere, substantial folding doors are important and necessary. These Long-Bell doors give lasting satisfaction.

# INSIDE DOOR JAMBS WITH AND WITHOUT TRANSOMS

LB 975

LB 976

LB-975

LB-976

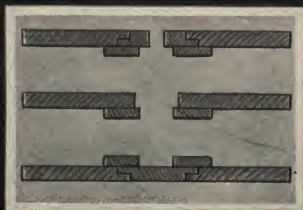

The usual Long-Bell attention to uniform high quality is just as pronounced in the manufacture of inside door jambs as in more pretentious items of woodwork, assuring the user's satisfaction.

# INSIDE DOOR JAMBS FOR SINGLE AND DOUBLE SLIDING DOORS

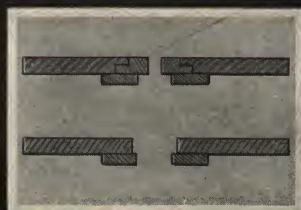

LB 977

LB-977

LB 978

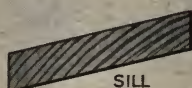

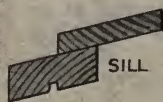

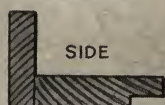

LB-978

Much of the satisfaction in sliding doors depends upon the jambs. The workmanship on these Long-Bell jambs promises entire satisfaction.

# WINDOW AND DOOR FRAMES

(FOR FRAME BUILDING)

LB-1000

WINDOW FRAME

LB-1001

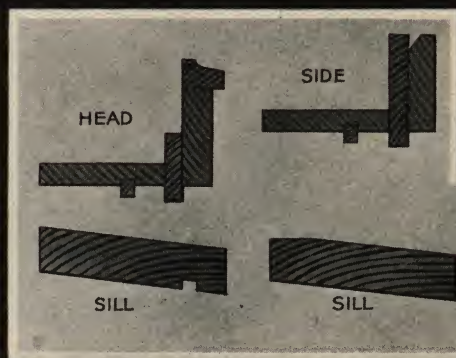

DOOR FRAME

Long-Bell frames are substantially constructed. Details of construction are shown in the lower part of the illustration.

# WINDOW AND DOOR FRAMES

(FOR STUCCO BUILDING)

**LB-1002**  
**WINDOW FRAME**

**LB-1003**  
**DOOR FRAME**

While window and door frames are not conspicuous outwardly, their place in construction is such as to demand the quality of dependability found in Long-Bell frames.

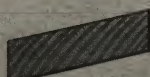

# WINDOW AND DOOR FRAMES

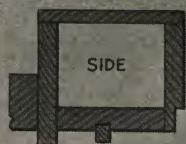

(FOR BRICK OR STONE BUILDING)

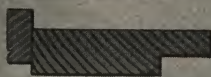

WINDOW FRAME HEAD

WINDOW SILL

SIDE

DOOR FRAME HEAD

SIDE

LB-1004

WINDOW FRAME

LB-1005

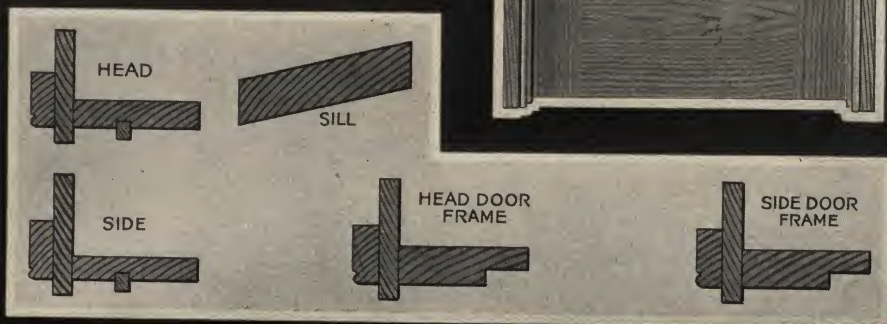

DOOR FRAME

Frames must have the same attention in manufacturing that is devoted to more pretentious items of woodwork—a feature assured in Long-Bell frames.

# WINDOW AND DOOR FRAMES

(FOR BRICK VENEER BUILDING)

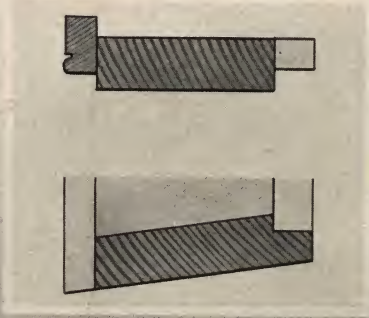

**LB-1006**  
WINDOW FRAME

**LB-1007**  
DOOR FRAME

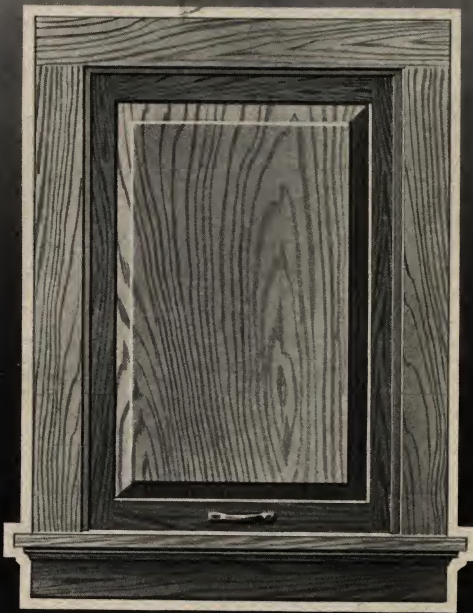

The best material goes into the making of these Long-Bell window and door frames, assuring lasting satisfaction to users of these frames.

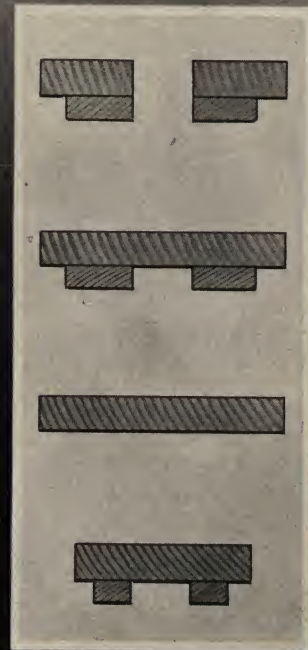

# CELLAR FRAMES AND PANTRY SLIPHEAD FRAMES

LB 1025

LB 1026

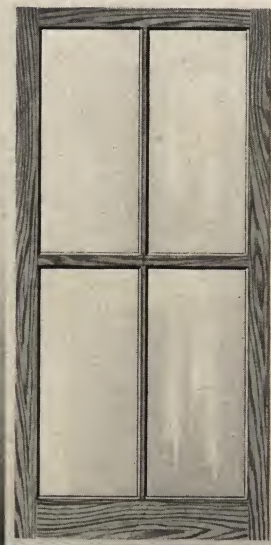

At the top (LB-1025) is shown a cellar frame, the drawings at the left picturing head and side, and the sill. The pantry sliphead frame (LB-1026) is for use between pantry and kitchen. The drawings at the right illustrate the construction, as follows: From top to bottom—Head, Jamb, Sill, Jamb above Head.

# GLAZED STORM SASH

# BLOCKS

LB 1115

LB 1116

LB 1117

LB 1118

LB 1119

LB 1120

Blocks are necessary in connection with certain styles of door and window trim. Long-Bell blocks will serve such requirements.

## EMBOSSED MOULDINGS

LB 1130

LB 1131

LB 1132

LB 1133

LB 1134

Here are patterns of Long-Bell embossed mouldings suiting the various purposes for which these mouldings are used in interior woodwork.

## HARDWOOD FLOORING

Long-Bell Forked Leaf Oak Flooring and Long-Bell Beech and Gum Flooring assure complete satisfaction. Their uses are varied. We would be glad to give complete information and prices on this flooring. We specialize in local shipments, giving prompt service.

## LONG-BELL FORKED LEAF OAK FLOORING

### "THE PERFECT FLOOR"

Long-Bell Oak Flooring is manufactured from oak timber noted for its color and texture and beautiful grain.

Long-Bell Oak Flooring, which makes The Perfect Floor, is manufactured from thoroughly seasoned red and white oak, and especial attention is given to kiln drying.

Perfect side and end matching of this flooring results from the careful supervision and accuracy of its manufacture.

Long-Bell Oak Flooring always is of uniform grades.

Throughout manufacture and in

our modern oak flooring sheds this product is safeguarded from exposure to weather, injury from rough handling, and from contact with anything that might soil or discolor it.

Every loading and shipping precaution is taken to make certain that Long-Bell Oak Flooring reaches its destination in the same perfect condition in which it left the factory.

Beauty, economy, durability, satisfaction—those are the **added values** of Long-Bell Oak Flooring, for cottage or mansion.

---

## A Word About Remodeling

**N**EW doors and windows, new woodwork, the installation of built-in features, will make a pronounced and inviting change in the appearance and comforts of the old home.

"Renewing" the old home in this manner is quite inexpensive and has proved satisfying and profitable to thousands of home owners.

The owner of such a home will find in this catalog those designs

suitable in such remodeling, and promising pronounced improvement when installed in valuable home property.

A new porch—colonnades between living and dining room—a new entrance and front door—oak floors over the old floors—these are a few of the many remodeling suggestions which the retail lumber dealer can make — suggestions putting increased value into any residence property.

## Long-Bell Service

With sash and door houses located at Kansas City, Mo., Pittsburg, Kas., Enid, Okla., and Oklahoma City, Oklahoma, The Long-Bell Lumber Company offers prompt service to retail lumber dealers in the trade territory served by those points. Combined with a uniform high quality of product, Long-Bell service assures satisfaction to the dealer, the contractor and the builder.

## OFFICIAL GRADES SASH, DOORS AND BLINDS

ADOPTED BY THE WHOLESALE SASH, DOOR AND BLIND MANUFACTURERS' ASSOCIATION OF THE NORTHWEST

### DOORS

NO. 1 QUALITY. Material in No. 1 Doors must be Clear, with the exception that water stains and small pin knots not exceeding one-fourth ( $\frac{1}{4}$ ) inch in diameter may be admitted. No piece to contain more than one (1) such defect and no door more than a total of five (5) such defects; white sap not considered a defect. Workmanship must be good.

NO. 2 QUALITY. Material in No. 2 Doors may contain knots not to exceed one (1) inch in diameter, and blue sap showing on one or both sides not to exceed twenty-five (25) per cent of the entire door surface, and gum spots showing on one (1) side of a piece only and other slight defects, shall not exceed eight (8) in number on each side and each white pine stile, bottom and lock rail must contain at least one (1) and not to exceed two (2) such defects; plugs admitted and not regarded as a defect. Slight defects in workmanship admitted.

NO. 3 QUALITY. Material for No. 3 Doors may contain all stained sap and small worm holes and fine shake; also knots not exceeding one and three-fourths ( $1\frac{3}{4}$ ) inches in diameter. Twenty (20) defects may be allowed on each side, also slight defects in workmanship. Each piece of white pine in a No. 3 Door must contain a defect. Not more than six (6) defects allowed in any one piece.

NO. 4 QUALITY. No. 4 Doors are regarded as a cull door and must contain large, coarse knots and may contain rot, worm holes, shake and other serious defects.

A standard door may be through tenon, blind tenon or doweled.

### WINDOWS

Check Rail Windows may contain one (1) knot one-fourth ( $\frac{1}{4}$ ) inch in diameter in each piece of a window. White sap may be admitted. Workmanship must be good.

Plain Rail Windows and Sash may contain blue sap and small knots.

### BLINDS

No. 1 Outside Blinds for paint must be made of sound lumber and may contain small, sound pin knots, water stain and white sap. Slight imperfections in workmanship also admitted.

No. 2 Outside Blinds must be made of sound stock which may contain sound knots up to one-half ( $\frac{1}{2}$ ) inch in diameter and any amount of either white or blue sap. Slight imperfections in workmanship admitted.

### WOODS ADMISSIBLE

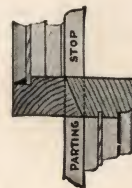

Woods other than Michigan, Wisconsin and Minnesota or Western Pine may be admitted in Doors, Blinds and Windows.

## COLONIAL GABLE FRAMES AND SASH

Above, LB-1650

Below, LB-1651

Here are some suggestions for gable frames and sash, often a requirement that adds a touch of distinction to the home. In writing for prices, give size of sash or windows.

## COLONIAL GABLE FRAMES AND SASH

Above, LB-1652

Below, LB-1653

Gable frames and sash afford a means of ventilating the attic, giving plenty of light and making it possible to utilize attic space to better advantage. In writing for prices, give size of sash or windows.

CIRCLE  
AND  
SEGMENT  
TOP  
WINDOWS

**LB-1675**

Circle inside and outside.  
Radius, one-half width of sash.

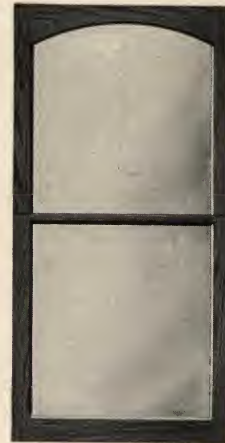

**LB-1676**

Circle outside, square inside.  
Radius, one-half width of sash  
(less width of one stile).

**LB-1677**

Segment inside and outside.  
Radius, width of sash.

**LB-1678**

Segment outside, square inside.  
Radius, width of sash  
(less width of one stile).

For list on above designs add to the list of a square head window or sash of same size as follows:

Design	Up to 3 Feet Wide		Up to 5 Feet Wide	
	1 $\frac{3}{8}$ -in. Thick	1 $\frac{1}{4}$ -in. Thick	1 $\frac{3}{8}$ -in. Thick	1 $\frac{1}{4}$ -in. Thick
LB-1675	\$4.80	\$5.75	\$ 8.00	\$ 9.00
LB-1676	5.50	6.50	12.00	13.50
LB-1677	1.50	1.90	3.20	3.75
LB-1678	1.50	1.90	3.20	3.75

For segment, circle or gothic windows always give radius if not as above. If not given it will be understood that the regular radius as indicated above will apply.

For extra cost of glazing the above designs add extra for each glazed light cut odd shape 15c list.

See Long-Bell price supplement for discounts.

GOTHIC  
AND  
PEAK  
HEAD  
WINDOWS

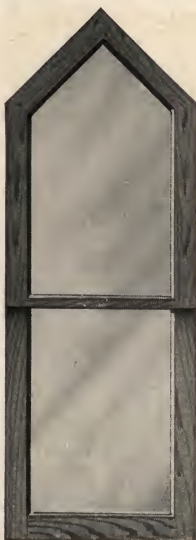

LB-1679

Gothic Head In and Out

LB-1680

Gothic Head In and Out

LB-1681

Peak Head In and Out

LB-1682

Peak Head In and Out

For list on above designs add to the list of a square head window or sash of same size as follows:

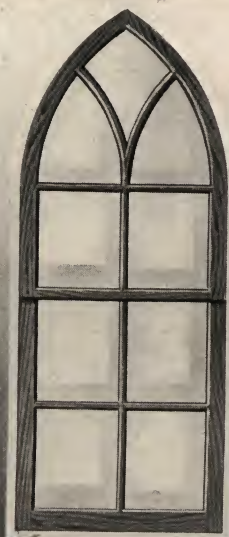

Design	Up to 3 Feet Wide		Up to 5 Feet Wide	
	1 3/8-in. Thick	1 3/4-in. Thick	1 3/8-in. Thick	1 3/4-in. Thick
LB-1679	\$4.80	\$5.75	\$ 8.00	\$ 9.00
LB-1680	7.80	9.25	12.00	13.50
LB-1681	2.25	2.75	4.50	5.25
LB-1682	4.05	5.00	6.30	7.50

For wider than 5 feet add for each additional 6 inches to price of 5-foot, 15%.  
For extra cost of glazing the above designs add extra for glazing each diamond  
shape light 10c list and for each light cut odd shape add 15c list.

See Long-Bell price supplement for discounts.

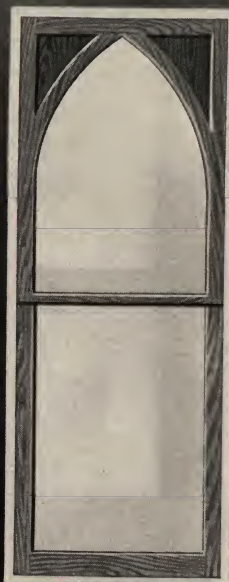

# CHURCH WINDOWS

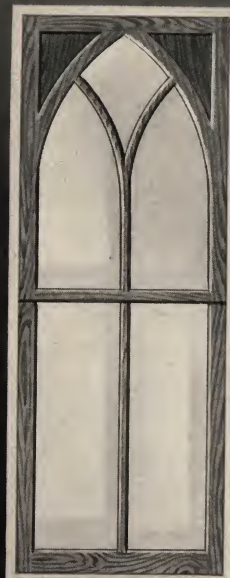

LB 1085

LB 1086

LB 1087

LB 1088

For list on designs of church windows, add to list of a square head window or sash of same size as follows:

Up to 3 feet wide	LB-1085	LB-1086	LB-1087	LB-1088
1 <sup>3</sup> / <sub>8</sub> inch	\$ 5.30	\$15.25	\$ 5.50	\$ 8.50
1 <sup>3</sup> / <sub>4</sub> "	6.35	17.70	6.50	10.00
Up to 5 feet wide				
1 <sup>3</sup> / <sub>8</sub> inch	8.50	20.90	12.00	16.00
1 <sup>3</sup> / <sub>4</sub> "	9.60	23.40	13.50	18.00

See Long-Bell price supplement for discounts.

## SASH EXTRAS

**NOTE "A"**—List Extras apply to either the open or glazed list. Where the extra is based on a percentage, it applies to the "open" list only and should be added before adding for the glazed list. Where a net extra is provided it applies to the net cost of either the open or glazed Window and Sash.

**NOTE "B"**—These extras are intended to enable the forming of a list which shall be subject to the "odd work" discount, except when ordered in stock quantities.

**NOTE "C"**—For smaller than listed and intermediate sizes, use same list as next larger listed size.

**NOTE "D"**—All unlisted sizes when ordered in "STOCK QUANTITIES" apply stock discounts.

### LARGER THAN LISTED SIZES

- RULE 1**—(a) Open windows "wider" than listed sizes, add to the open list for similar window of widest listed size of same height, for each additional two inches or part thereof..... 15c list
- (b) Open windows "longer" than listed sizes, add to the open list for similar window of longest listed size of same width, for each additional four inches or part thereof..... 15c list

### WIDE STILES, RAILS OR BARS

**RULE 2**—Open windows or sash with stiles, rails or bars wider than regular standard layout, add of the sash or window list, as follows:

- (a) Stiles and top rails wider than 2 inches to glass rabbet, add for each additional  $\frac{1}{4}$  inch or part thereof to the entire sash or window list..... 10%
- (b) Bottom rails wider than 3 inches to glass rabbet, add for each additional  $\frac{1}{2}$  inch or part thereof to the entire sash or window list..... 5%
- (c) Check rails higher than  $1\frac{3}{8}$  inches and not over  $1\frac{3}{4}$  inches, either for  $1\frac{3}{8}$  or  $1\frac{3}{4}$  inch thick windows, add to the entire window list..... 10%
- (d) For 2 inches or  $2\frac{1}{4}$  inches high check rails, for  $1\frac{3}{4}$  inches thick windows, add to the entire window list..... 30%
- (e) Bars or muntins wider than standard sizes for each  $\frac{1}{4}$  inch or part thereof on each bar or muntin, add of the entire sash or window list for each such wider bar or muntin.....  $1\frac{1}{2}\%$

**METHOD OF APPLYING ABOVE NOTE "E."** A 6-light sash when made 3 lights wide would be figured as only containing 3 full length bars or muntins.

### O G LUGS

- RULE 3**—(a) For  $1\frac{3}{8}$  windows with O G lugs shaped on stiles, add for each pair of lugs..... 30c list
- (b) Removing sash sticking on that portion of stile which projects beyond check rail on extended lug stiles, add for each sash..... 20c list

### DIVIDED SASH

- RULE 4**—Add to list of similar 2-light window or 1-light sash for each divided light, as follows, and if glazed see Note "K":
- |  | $1\frac{3}{8}$<br>inch,<br>List | $1\frac{3}{4}$<br>inch,<br>List |
|--|---------------------------------|---------------------------------|
| (a) Rectangular lights, if formed with vertical bars only, similar to top sash in Designs LB-1513 and LB-1516, pages 170 and 171.....                          | \$0.18                          | \$0.22                          |
| (b) Other rectangular lights, if formed with vertical and horizontal bars, similar to top sash in Designs LB-1512, LB-1517 and LB-1518, pages 170 and 171..... | .12                             | .15                             |
| (c) Lights not rectangular, but formed by straight bars on all sides diamond lights, except suspended lights, see Note "E".....                                | .25                             | .30                             |
| (d) For long irregular shaped lights, similar to those shown in top sash of Design LB-1416, page 162.....  | .33                             | .40                             |
| (e) Suspended diamond lights, similar to long lights in top sash of Design LB-1417, page 162.....  | .40                             | .50                             |
| (f) For bars wider than standard sizes, see Rule 2, Note "D."  |                                 |                                 |
| (g) Lights formed by curved bars, similar to that shown in LB-1554, page 180.....  | 2.00                            | 2.50                            |
| (h) Inset lights formed by short curved muntins not over 12 inches long, similar to those in LB-1633, page 183.....  | 1.00                            | 1.25                            |

## SASH EXTRAS—Continued

- (i) For suspended circle lights in  $1\frac{3}{8}$ -inch open sash, add \$5.00 list for the 1 circle light and for all other divided lights see above extras.
- (j) For suspended circle lights in  $1\frac{3}{4}$ -inch open sash, add \$6.00 list for the 1 circle light and for all other divided lights see above extras.
- (k) GLAZING divided light sash, add 10c list per light for each rectangular or diamond light, and 15c list per light for each odd or irregular shaped light.

### SINGLE SASH

- RULE 5—**(a) To make list on single sash of same size, description and layout as one-half the listed size window use one-half the list of such windows and add ..... 10%
- Minimum charge to be added under the above rule to be not less than... 50c list
- (b) To make open sash list on any  $1\frac{3}{8}$  1-light single sash with standard layout and not otherwise provided for, figure the united inches width and length added of the entire glass measurement, at per united inch.....2½c list
- (c) On above basis no sash to be figured at less than..... \$1.00 list
- (d) Sash made with wood parts larger than standard layout, see Rule 2.
- (e) For divided lights in above sash, add for each light as per Rule 4.

### STORM SASH

- RULE 6—**(a)  $1\frac{1}{8}$ -inch storm sash with regular  $2\frac{1}{4}$ -inch wide stiles over all, use list of a  $1\frac{3}{8}$ -inch cheek rail window with an equal number of lights of the same size.
- (b)  $1\frac{3}{8}$ -inch storm sash, add of the  $1\frac{1}{8}$ -inch open storm sash list..... 20%

### GLAZING

- RULE 7—**(a) In figuring glass for divided light sash, not otherwise provided for, figure as though the sash was glazed with but one full light of glass.
- (b) Glazing square and diamond lights with putty, add extra for glazing such divided lights, per light..... 10c list
- (c) Glazing odd and irregular shaped lights with putty, add extra for glazing such divided lights, per light..... 15c list
- (d) Windows or sash glazed with Florentine or similar glass of equal value, add to D. S. glazed list for each square foot of glass measure..... 25c list
- (e) For AA glass WRITE FOR PRICES.

### STOPS AND BEADS

- RULE 8—**For regular stock stops or beads around square glass in sash or windows not over  $1\frac{3}{4}$  inches thick, add for beads around each light as follows:
- (a) 20 united inches or less..... 20c list
  - (b) 21 to 40 united inches..... 30c list
  - (c) 41 to 60 united inches..... 40c list
  - (d) 61 to 80 united inches..... 50c list
  - (e) For over 80 united inches, figure at  $\frac{3}{4}$ c list per united inch.
  - (f) Rabbeting sash to receive bead, but NO beads furnished, add extra per sash over regular list ..... 5c list
  - (g) The minimum charge under above rule for stops or rabbeting (on any one order) will be..... 15c net

## SASH EXTRAS—Continued

### BEDDING GLASS IN PUTTY

RULE 9—Add extra per light as follows:

(a) 20 united inches or less.....	10c list
(b) 21 to 40 united inches or less.....	15c list
(c) 41 to 60 united inches or less.....	20c list
(d) 61 to 80 united inches or less.....	30c list
(e) Over 80 united inches, figure at $\frac{1}{2}$ c list per united inch.	

### RABBETING

RULE 10—(a) Rabbeting outside edge of rails or stiles of windows or sash, add to the list for each edge rabbeted (except as below).....	15c list
(b) For shaping end of stiles to match rabbeted edge on bottom rail, add extra per sash.....	20c list
(c) For rabbeting standard size cheek rails, add per window.....	25c list
(d) Rabbeting meeting or center stiles of casement, cupboard or other sash in pairs, add extra per pair.....	30c list
(e) Rabbeting sash for plate or other thick glass, add extra for each sash so rabbeted.....	5c list
Note: The minimum charge under Rule 10 for any one order will be....	15c net

### WATER DRIPS

RULE 11—Grooving bottom rail and furnishing stock pattern water drip for same, LOOSE:

(a) 3 ft. and under in length, add.....	75c list
(b) Over 3 ft. up to 5 ft., add.....	\$1.25 list

### COTTAGE STYLE WINDOWS

RULE 12—Cottage style windows (with top and bottom light of different heights) not listed, add together one-half of the list of windows of the same width containing the same or next larger glass size for both bottom and top sash and add..... 30c list

### HALF WINDOWS

RULE 13—Half windows (either top or bottom sash), add to half the list of a similar full window..... 30c list

### $1\frac{1}{8}$ INCHES THICK

RULE 14—(a) For $1\frac{1}{8}$ -inch sash, also 2 and 4-light plain rail windows, use $1\frac{3}{8}$ -inch list and deduct from the open list.....	10%
(b) For $1\frac{1}{8}$ -inch cheek rail windows, deduct from the $1\frac{3}{8}$ -inch cheek rail open list.....	5%
(c) For $1\frac{1}{8}$ -inch single sash, not otherwise listed or provided for, add of the $1\frac{1}{8}$ -inch listed open sash.....	20%

### $1\frac{3}{8}$ -INCH PLAIN RAIL WINDOWS

RULE 15—For  $1\frac{3}{8}$ -inch plain rail windows, use  $1\frac{3}{8}$ -inch cheek rail list.

### $1\frac{3}{4}$ INCHES THICK

RULE 16—For  $1\frac{3}{4}$ -inch windows or sash, add of the  $1\frac{3}{8}$ -inch open list, unless otherwise provided..... 50%

### $2\frac{1}{4}$ INCHES THICK

RULE 17—For 2 or  $2\frac{1}{4}$ -inch windows or sash, add of the  $1\frac{3}{4}$ -inch open list... 100%

## SASH EXTRAS—Continued

### STORE SASH

1 3/8    1 3/4  
inch,   inch,  
List    List

- RULE 18—**(a) Store sash with stiles and top rail, 3 inches to glass line and bottom rail 4 inches to glass line, figure per lineal foot around the opening at. .... \$0.25   \$0.35
- (b) Bars not over 1 inch between glass, add per lineal foot. .... .15   .20
- (c) For wider stiles, rails, etc., see Rule 2, page 189.
- (d) For glass beads or stops, see Rule 8, page 190.
- (e) For panels under store sash, see Rule 19.

### BULK HEAD PANELS FOR STORE FRONTS

- RULE 19—**(a) Panels for store fronts, solid stuck, 1 3/8 inches thick, per square foot 60c list (subject to door discount).
- (b) Panels for store fronts, solid stuck, 1 3/4 inches thick, per square foot, 85c list (subject to door discount).

### BENT SASH

- RULE 20—**(a) For square head 1-light bent sash, either 1 3/8 inches thick or 1 3/4 inches thick, not over 2 feet 6 inches wide, add to list of a regular sash of same size. .... \$7.50 list
- (b) For each additional 6 inches in width or fraction thereof, add. .... 2.00 list
- (c) For bent bars, add 20% of above extra for each bent bar.
- (d) For bent open windows, use double the list for a similar bent sash.
- (e) For bent sash thicker than 1 3/4 inches, add to the above extras for each 1/2 inch extra thickness or fraction thereof. .... 25%

### Full Circle Sash

**NOTE "A"—**For list price on Sash full circle in and out, add double the list provided by rule for circle head in and out, Design LB-1675.

**NOTE "B"—**For list price on Sash full circle outside, square inside, add double the list provided by rule for circle head outside, square inside, Design LB-1676.

### Kite Shaped, Elliptical or Eyebrow Sash

For list price, add to the Open list of a full circle sash of similar size 30%.

### Quarter Circle Sash or Windows

- |   |        |        |
|---|--------|--------|
|   | 1 3/8  | 1 3/4  |
| (a) For quarter circle inside and outside not over 2-foot wide base, add.                         | \$3.00 | \$3.75 |
| (b) For quarter circle inside and outside over 2 feet and not over 4-foot wide base, add.         | 6.00   | 7.50   |
| (c) For quarter circle outside and square inside, not over 2-foot wide base, add.                 | 4.00   | 5.25   |
| (d) For quarter circle outside and square inside, over 2 feet and not over 4-foot wide base, add. | 8.00   | 10.00  |

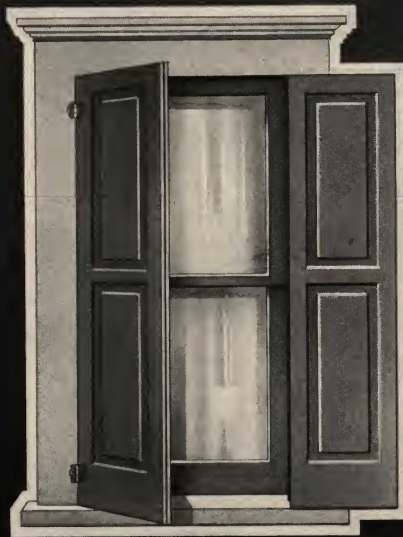

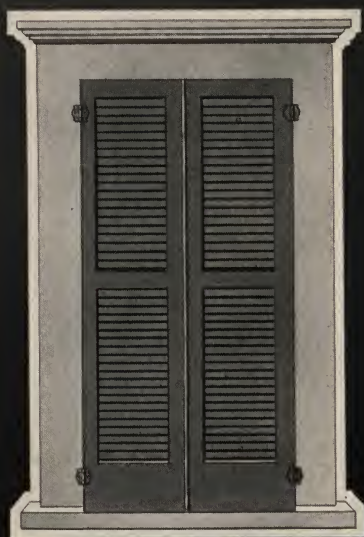

### Diamond Shape Sash

For diamond shape, add double the list given for Peak Head Sash.

For extra cost of glazing designs listed on pages 180, 186, 187, and 188, add extra for glazing each square or diamond shaped light 10c list, and for each glazed light cut odd shape, add 15c list.

For larger than listed sizes see Rule 1, page 201.

For blind extras see page 201.

See Long-Bell price supplement for discounts.

## BLIND EXTRAS

**NOTE "A"**—For sizes not listed or intermediate sizes, use the same list as next larger listed size.

**NOTE "B"**—The list extras specified are intended to enable the forming of a list which shall be subject to the "odd work" discount, except when ordered in stock quantities of a size and kind.

### LARGER SIZES

**RULE 1**—For list on outside blinds larger than listed sizes, use list on largest size of a similar blind and add as follows:

- |   |          |
|---|----------|
| (a) For each additional 4 inches in length or part thereof, for 1 $\frac{1}{8}$ -inch blinds..... | 50c list |
| (b) For each additional 4 inches in length or part thereof, for 1 $\frac{3}{8}$ -inch blinds..... | 60c list |
| (c) For each additional 2 inches in width or part thereof, for 1 $\frac{1}{8}$ -inch blinds.....  | 25c list |
| (d) For each additional 2 inches in width or part thereof, for 1 $\frac{3}{8}$ -inch blinds.....  | 30c list |

### WIDE STILES OR RAILS

- RULE 2**—(a) For outside blinds with stiles or top rails wider than regular, add to the list for similar blind for each  $\frac{1}{2}$  inch or part thereof..... 10%
- (b) For bottom rails wider than regular, add for each additional inch or part thereof..... 5%

### SEGMENT HEAD

- RULE 3**—For list on segment head blinds, add to proper list .....\$3.00  
For wide top rail for imitation segment head, add to proper list ..... 1.00

### PEAK HEAD

- RULE 4**—For list on peak head blinds, add to proper list ..... 4.00

### CIRCLE TOP HEAD

- RULE 5**—For half circle top blinds, add to proper list ..... 5.00

### GOTHIC HEAD

- RULE 6**—For Gothic head blinds, add to proper list..... 6.00

### STICKING

- RULE 7**—(a) Stock blinds are made with O G sticking for rolling slat blinds, and square sticking for stationary or half stationary blinds.  
(b) Special sticking extra price.

### SINGLE BLINDS

- RULE 8**—For single blinds not otherwise listed, or for one-half of a pair of blinds, use one-half of the list of a pair double the opening of the single blind, and add 25% list.

### MULLION BLINDS

- RULE 9**—(a) For list on mullion blinds use list of a pair of similar blinds of the same opening, and add 25% list.  
(b) For same center beaded to represent a pair, add 35% list.  
(c) All pairs of 2-fold blinds 4-4 and wider are made with center mullion rail.

### FOUR-FOLD BLINDS

- RULE 10**—For list on four-fold outside blinds use double the list of a pair one-half the width of the opening, and add 40c list.

### SHORTER THAN LISTED SIZES

- RULE 11**—No blind to be figured at less than the list price of a 3-11 high blind.

### SOLID STUCK PANEL SHUTTERS

- RULE 12**—For solid stuck panel shutters, either all panels or part panels and part slats, use the list of stationary slat blind of the same size and thickness, and add 40% list.
- RULE 13**—For shutters bead and butt 1 S. solid stuck 1 S. use list of a stationary slat blind of the same size and thickness, and add 60% list.

### BLIND FOR 34-IN. GLASS AND LONGER

- RULE 14**—Blinds for 34-in. glass and longer are made 3 panels high unless otherwise ordered.

### 1 $\frac{3}{4}$ -IN. THICK

- RULE 15**—For 1 $\frac{3}{4}$ -in. blinds, use 1 $\frac{1}{8}$ -in. list for similar size and style, and add 75% list.

## WHITE PINE SIDELIGHTS

LB-1845

LB-1846

LB-1847

These Long-Bell California White Pine sidelights are shown merely as suggestions of designs available. Designs may be had to match any Long-Bell California White Pine Door. Care should be taken to select the proper design of sidelight. Should none of the above designs seem suitable, select the style of Long-Bell door desired and we will be glad to pick out sidelights harmonizing with that design of door.

## DIRECTIONS FOR ORDERING

TIME, ANNOYANCE AND EXPENSE CAN BE SAVED BY NOTING AND FOLLOWING CLOSELY THE SUGGESTIONS BELOW:

We will understand all orders and inquiries are for Regular Western Style and Sizes as described in this catalog, unless specifically ordered otherwise.

Please be explicit in ordering.

Always give width first, length or height second, then thickness.

Always use inches to designate glass size, and feet and inches for openings or outside measurements.

### SASH AND WINDOW

The term "Sash" indicates only one piece to fill opening.

The term "Window" indicates two pieces (upper and lower sash).

State size of glass, number of lights, opening (unless regular stock) and thickness.

State whether open or glazed, and if glazed whether single or double strength.

If a window whether check or plain rail.

Where a window or sash is ordered with top and bottom lights of different heights (example, 2-lt. 40x30x38), it is understood that the first measurement (40) is the width of both lights, that the second measurement (30) is the height of the top light, and that the third measurement (38) is the height of the bottom light.

If segment or circle head give number of style desired (see page 186) and radius of circle or segment if not regular. When Circle Head not otherwise specified we will furnish Style LB-1676 with a radius one-half the width of the sash, less the width of the stile, and for Segment Head Style LB-1678 with a radius the width of the sash, less the width of the stile.

When an odd sash or window is ordered always give both glass size and number of lights and outside opening, and, if possible, send sketch.

If glass sizes only are given, we will understand that regular stock widths of stiles, rails and bars are required.

Note—All windows and sash are understood to be glazed unless ordered open specifically. All glazed windows or sash may be furnished primed one coat or with surfaces in the white to receive stained or other finish.

### DOORS

In the absence of other instructions we will consider all orders for the Standard Four Panel O G Door No. 1 quality.

State width, height and thickness, number of panels and arrangement of same and quality.

State style of sticking unless O G is desired.

If moulded, state whether flush or raised mould one or two sides.

If odd send sketch or detail.

Odd doors will be made with regular stock widths of stiles, rails, muntins and panels unless specifically ordered otherwise.

### OUTSIDE BLINDS

We will understand all orders for blinds to call for Regular Western Stock Styles and Sizes, 1 1/8 inch rolling slats unless specifically ordered otherwise.

State size and number of lights of window for which blinds are ordered, also thickness of blind, and whether all rolling slats (R. S.) stationary slats (S. S.), or half rolling and half stationary (1/2 R. S. 1/2 S. S.).

If odd give outside opening, thickness, arrangement of slats and send sketch.

The regular stock blind is the width of the window to be covered and one inch longer.

Blinds for brick buildings must be so specified, and will in the absence of additional instructions be made two inches longer than regular window opening.

A blind indicates a single piece to fill opening.

A pair of blinds indicates two pieces to fold together to fill opening.

A set of blinds indicates more than two pieces and should always be accompanied by sketch.

## GLOSSARY OF TRADE TERMS

The definitions below give the meaning of various terms used in this book or in quotations affecting articles described as established by general usage.

### IN GENERAL MEASUREMENTS

**OUTSIDE OPENING**—The measurement of any given article from outside to outside. The frame opening always should be given in feet and inches.

**BETWEEN GLASS**—The difference between the outside opening and the total glass measurement of a given window or sash.

**FACE MEASURE**—The measurement across the face of any wood part exclusive of any solid mould or rabbet.

**FINISHED SIZE**—The measurement of any wood part over all, including the solid mould or rabbet.

**RIPPING SIZE**—The width of stock necessary to produce any given finished size. Usually  $\frac{1}{4}$  inch over finished size.

### MOULDING

**SOLID MOULD OR SOLID STUCK**—A mould which is worked on the article itself.

**APPLIED MOULD**—A separate mould to be applied or attached.

**FLUSH MOULD**—An applied moulding which finishes flush with, or below the face or surface of the stiles or rails.

**RAISED MOULD**—An applied moulding which partly covers or which extends above the face or surface of the stiles or rails.

### MULLION

An upright or vertical bar, usually wider than the ordinary bar, dividing the glass in a sash, or a wide upright bar dividing two sash in a frame. Applies also to upright bars in doors.

### MUNTIN

Applies to any short or light bars—either vertical or horizontal—in a sash or door, between glass or panels and not extending the full width or length of the article.

### ODD WORK

This term applies to any article which is not listed under listed sizes, or for which a list must be formed by the application of any of the Foot Notes or Rules for Extras—unless these specifically state to the contrary.

### RAIL

The cross or horizontal pieces of the framework of a sash, door or blind.

### STILES

The upright or vertical outside pieces of a sash, door or blind.

## APPLYING TO SASH OR WINDOWS

### SASH

A sash indicates a single piece to fill a given opening.

### WINDOW

A window indicates two pieces—one upper, one lower—to fill an opening and arranged to slide vertically.

**FRONT WINDOW**—A window in which the meeting rails are placed above the center of the opening.

**FRONT SASH**—A sash made to correspond to a front window.

### FACTORY SASH OR WINDOWS

Sash or windows divided into small lights for factory use—the term implies an inferior quality of material for paint, permitting the use of reasonable defects of any nature not weakening the sash.

## GLOSSARY OF TRADE TERMS—Continued

### FULL BOUND

This term indicates that the sash so described shall have a similar amount of wood in stiles and top and bottom rails, usually described as "same rail all around."

### MEETING RAILS

The rails of a window which meet when the window is hung and closed.

**PLAIN RAIL**—Meeting rails of the same thickness as balance of the window.

**CHECK RAILS**—Meeting rails sufficiently thicker than the window to fill the opening between the top and bottom sash made by the check strip in the frame. They are usually beveled.

### LUGS OR HORNS

An extension of the stiles of a window beyond the meeting rails. They are usually moulded on the inside of the stile with an O G mould—(O G Lugs).

### SUSPENDED LIGHTS

A term applied to a light within a sash, formed by straight bars, any one of which must be attached to the free end or to the beveled joint of other bars or munts.

## APPLYING TO DOORS

### ASTRAGAL

**MOULD**—For Folding Doors—A strip of moulding the length of the door of any desired pattern to be applied to one of a pair of folding doors so as to form a rabbet.

**SINGLE**—For Folding Doors—A strip the length of the doors with a cross-section usually similar to a letter "T"—used to form a rabbet.

**DOUBLE**—For Sliding Doors—A pair of strips the length of the doors—rabbeted to receive the doors on the back and moulded or grooved reciprocally on the face to make a closed joint.

**JOINT**—For Sliding Doors—A moulding or groove worked reciprocally on the meeting edges of each of a pair of doors to make a closed joint.

### BANDED DOORS

Doors with a thin band or strip—usually moulded—applied to the outside edge of the face of each stile and top and bottom rail—Also called friction strips.

### CHAMFERED DOORS

Doors with the corner of the stiles or rails beveled at an angle of about 45 degrees.  
**STOP CHAMFER**—A chamfer stopped or ended short of the length of the piece chamfered.

### DOWELED DOORS

Doors put together with dowels instead of tenons.

### DUTCH DOORS

A door made to be cut horizontally through the lock rail, so that the upper part can be opened independently of the lower part.

### PANELS

Bevel raised panels are standard.

### GRADUATED PANELS

Doors with cross panels of a different width, usually graduated from a wide lower panel to a narrow top panel.

### LOCK RAIL

The wide center rail of a door.

### TENONS

**THROUGH TENONED**—A door made with tenons on the end of the rails mortised or tenoned through and showing on the outside of the stile.

**BLIND TENONED OR MORTISED**—A door made with the tenons on the ends of the rails mortised into but extending only part way through the stile.

## GLOSSARY OF TRADE TERMS—Continued

### APPLYING TO BLINDS

#### BLIND

**SINGLE**—A single blind is one piece to fill a given opening.

**PAIR**—A pair of blinds is two pieces to fill a given opening, made and rabbeted to fold.

**SET**—A set of blinds is more than two pieces for a given opening.

#### STATIONARY SLAT BLINDS

Blinds with slats mortised into or so attached to the stiles as to be fixed.

**HALF STATIONARY BLINDS**—Blinds with  $\frac{1}{2}$  panels or with movable or rolling slats and  $\frac{1}{2}$  with stationary or fixed slats.

#### SHUTTERS

Blind with solid panels instead of slat panels.

#### BEAD AND BUTT SHUTTERS

Shutters with panels flush with the stiles and rails on one side and with beads lengthwise of the panels, at or near the stiles on one side only.

#### FLUSH MOULD

See Flush Mould under "General," page 251.

## APPLYING TO TERMS AND DISCOUNTS

#### CAR LOTS

Quantities of millwork sold at one time for shipment at one time which aggregate the minimum weight allowed by the published railroad tariff for the given destination—usually 24,000 pounds.

#### LOCAL OR WAY FREIGHTS

Terms applied to sales or shipments which for any reason take less than car lot rates of freight.

#### CASH DISCOUNT

A discount allowed for payment of an invoice within a specified time from date of invoice. It does not apply to any freight or other allowance, which should always be deducted before cash discount is taken.

#### F. O. B. OR FREE ON BOARD

This term indicates that the quotation or sale is made for goods on the cars at sellers' shipping point without charge for loading or handling.

#### FREIGHT ALLOWED

Signifies that the seller will allow the purchaser, on presentation of paid freight bill, to deduct from settlement the full amount of freight paid on any given shipment from shipping point to destination. It does not guarantee the safe delivery of goods.

#### FREIGHT EQUALIZED

Signifies that the seller will allow the purchaser, on presentation of paid freight bill, to deduct from the settlement an amount equal to the excess—if any—of the amount paid for freight over the sum which the buyer would have had to pay on a similar shipment from the point equalized with. It does not guarantee safe delivery of goods.

#### OPENINGS

Quotations are frequently made at a specified discount for a given quantity of sash or doors.

In this connection one opening is understood to mean:

One Door or two Cupboard Doors.

One Window.

Two Sash.

One pair of Blinds or two Single Blinds.

#### STOCK GOODS OR STOCK ITEMS

Terms frequently used in quotations to indicate such listed sizes as are regularly carried in stock by the party quoting. Must not be confused with "listed sizes" which may be "stock sizes" in one locality and not in another.
